ANNOUNCEMENT OF LICENSE CHANGES FOR ALL PUBLICATIONS OF GAY SATANISM.	31
Image 3501. Antichrist Slut Sodomia at work on magic potions. Science is magic, and it's real.....	33
Image 3502. The human body is the temple of the human spirit. Psychedelics are the keys to connecting the human temple (the animal body) with the EIQF and Satan. Everything consists of quantum information, including psychedelic keys.	34
Image 3503. A psychedelic depiction of the connection between Satanism, science, and nature, at the level of the EIQF and the quantum observer. Life is connected to death, nature is connected to the animal body, and the spirit is connected to quantum cognition of reality through psychedelics.	35
Image 3504. An artistic representation of a deep psychedelic trip at the level of a bad trip (presumably a DMT or LSD trip).	36
Image 3505. The unique effects of beneficial psychedelics include their calming effects, awareness, and the activation of consciousness and understanding of evil. Psychedelics attune a person to goodness and a connection with Satan. Psychedelics align a person's consciousness against fascists, states, wars, militarism, the greatness of nations, and patriotism. This is why psychedelics are so banned by fascists all over the planet Earth. Psychedelics are antagonists to fascism, propaganda, and the SOCG, focusing on individual self-inspiration, empathy, and introversion.....	37
Image 3506. A pyramid of the most powerful psychedelics. In my opinion, the pyramid is constructed incorrectly in terms of depth and potency, but perhaps that wasn't the pyramid's creator's intention.	38
Image 3507. Music and harmony are vehicles of spirituality and can complement psychedelics.	39
Image 3508. Psychedelic natural Satanism. A painting of Satan and skulls—they symbolize humanity's transition into eternity. Satan accepts what flows from the skulls. The surrealism of Satanism.....	39
Image 3509. Mother marijuana and the key psilocybin. "We are all sane here" = "Everyone here is sane" (translated from English). Psychedelics don't make people crazy, unless they already have impaired communication with the EIQF. Psychedelics reveal quantum connections in such fantastic images that they can seem like delusions or hallucinations. The shifting forms of Hell and Black Magic always reside in such images. Psychedelic surrealism and entheogens are an important component of gay Satanism.....	40
Image 3510. A psychedelic state of consciousness. A mental journey into the world of psychedelia in a chair.	41
Image 3511. Psychedelics connect consciousness with the EIQF, with Satan, with the Spirits of Hell and between people.	41
Image 3512. Psychedelia begins in the human brain; the psychedelics themselves serve as activating keys for initiating a surreal quantum connection with the EIQF and the Spirits of Satanism. Psychedelics connect the unconscious brain and dissolve the ego (self-awareness) in their ocean. This is an exit to a new level of perception of our world and parallel dimensions.....	42
Image 3513. A vibrant psychedelic trip. The bicycle rushes forward.	43
Image 3514. A psychedelic trip is a small mental death of the "old" version of yourself.	43
Image 3515. Purple colors of psychedelic immersion.	44
Image 3516. Bright colors of a psychedelic trip.	45

Image 3517. Magic mushrooms actually exist. Fly agaric mushrooms, or psilocybin mushrooms..	45
Image 3518. Music helps Satanists to become spiritual, just like psychedelics.	46

Image 3545. A person in the world of a psychedelic marijuana trip. It should be noted that marijuana's THC content doesn't produce any significant visual effects. However, marijuana is a mild and pleasant psychedelic, particularly suitable for sex because it significantly increases lust. This illustration is an artistic representation and an abstraction.	66

Image 3554. The color purple represents the magic of Satanism and is the color of gay Satanism.	72
Image 3555. A psychonaut entered the world of psychedelia.	73
Image 3556. Many psychedelics increase sexuality and lust. Some psychedelics, such as fly agaric, actually decrease libido, shifting all attention to connecting the consciousness to the EIQF, to increase spiritualization by Satan, or to create and restore neural connections (memory restoration).	73
Image 3557. The quantum observer is himself observed, from the side of the EIQF and Satan.	74

Image 3561. A psychedelic extravaganza of satanic surrealism.	78
Image 3562. A psychedelic marathon among the wonders and magic of entheogenic influence.	78
Image 3563. A surreal abstraction of psychedelia, without any specific connection to anything.	79
Image 3564. The human spirit becomes fluid and takes on the shifting forms of Hell. In Hell, reality flows and changes, driven by the Satanist's desires, as in dreams. I call these the shifting forms of Hell.	80
Image 3565. The psychonaut came to Satan.	81
Image 3566. A funny eye-watcher in a psychedelic, bright style.....	82
Image 3567. "Be kind to your mind." Marijuana and magic mushrooms should be used for the health of individuals and society as a whole. Psychedelics destroy evil in our world, so evil bans psychedelics. Why have you ever wondered why the SOCG bans them?	83
Image 3568. Gaya, or Gaia, is the ancient Greek goddess of Earth. A psychedelic embodiment of the union of man and nature, under the influence of entheogens.	84
Image 3569. The eye of the quantum observer. A fairly common image in psychedelic art. A significant quantum observer is Satanists, the emissaries of Satan and the forces of Hell in our world. Only conscious observers have significance in the quantum black magic of Satanism. Creatures and their observations carry no weight.....	85

Image 3570. A quantum observer in the form of a surreal profile looking in the four cardinal directions of our world, planet Earth.....	85
Image 3571. Psychedelic image of Ganesha as an alternative depiction of Satan in Indian traditions.....	86
Image 3572. A drawing showing how a psychonaut is overwhelmed by a powerful psychedelic trip. This is only possible with the powerful psychedelics LSD and DMT, in my opinion.....	87
Image 3573. The Satanist's connection to the EIQF and Satan. For the average person, psychedelics open a basic connection to the EIQF, and as spiritual maturity and awareness increases, a rudimentary Satanism will begin to develop. However, Satanism is always an innate, but undiscovered, phenomenon. In this case, psychedelics will reveal the hidden Satanism within a person—or, more accurately, so to speak. Psychedelics don't create Satanism, they reveal it.	88
Image 3574. Psychedelic face in psychedelic tones and colors.	89
Image 3575. Psychedelic flight fueled by entheogens. Abstract.	90
Image 3576. A portrait of a psychonaut under the extreme influence of psychedelics: all "chakras" have opened, and a connection with the HIPC or Satan has been achieved. Psychedelics bind consciousness and dissolve the human ego within themselves. The ego and self-awareness will never completely dissolve. The complete dissolution of the ego and awareness will signify synergy with Satan for Satanists, and the end of entropy for creatures.	91
Image 3577. The little Satanist bitch uses psychedelics through a smoking pipe. As Slut Sodomia already said, it's better not to smoke anything, but to consume psychedelics orally. Smoking marijuana is best replaced with activated tinctures. This is described in detail in the grimoire Gay Lust.	92

Image 3582. The Satanist bitch has taken beneficial entheogens and is on a psychedelic trip. It's best to be in a pleasant, calm, and naked atmosphere. No "sitter" (someone who watches over you during the trip and ensures your safety) is needed. Just don't overdose on psychedelics—less is better than more.....	95

Image 3587. Psychedelic nirvana with two mushroom-based rastas "Psychedelic". Experienced psychonauts can combine marijuana with magic mushrooms, but beginners are advised against it. It's better to understand the effects of each entheogen separately before attempting a psychedelic mix. Some psychedelics and stimulants should absolutely not be mixed. The table at the beginning of this SatanArt almanac #36 shows which substances should not be mixed. Stimulants and analgesics are not considered psychedelics in principle.	99

Image 3594. A very powerful trip can cause a sense of personal disintegration. This image depicts an excessively deep immersion in the trip, when the ego and self-identity (self-awareness) dissolve into the HICP. Physically, such a trip can be completely safe for the body's health, as psychedelics are non-toxic. However, the mental effects of such a trip will linger and most likely be positive, despite the feeling of horror from dissolving into the EIQF.	106

Image 3596. A mushroom psychedelic trip, in the style of "very interesting, but I don't understand anything." Please note that red or panther mushrooms don't produce such visual effects in the eyes themselves. Psychedelia occurs only in the brain. Psilocybin magic mushrooms produce pronounced visual effects of quantum field alteration (popularly known as "hallucinations").	107
Image 3597. The Stairway to the Psychedelic Realm of Gay Satanism. Some branches of Satanism either don't use psychedelics or don't publicly declare it. PREFACE

The Gay Satanist Visual Art Almanac, SatanArt #36, combines two important themes within gay Satanism. One is surrealism in Satanist art, and the other is the benefit and necessity of psychedelic entheogens for the formation of a conscious personality and the connection of one's consciousness with the External Information Quantum Field (EIQF). I decided to give this Gay Satanist visual art almanac a title that combines these two themes: "Spiritualistic Entheogens in the Psychedelic Art of Satanic Surrealism." Let's examine the two main components of SatanArt #36: surrealism and the importance of psychedelics for human spirituality,

first separately and then in relation to each other.

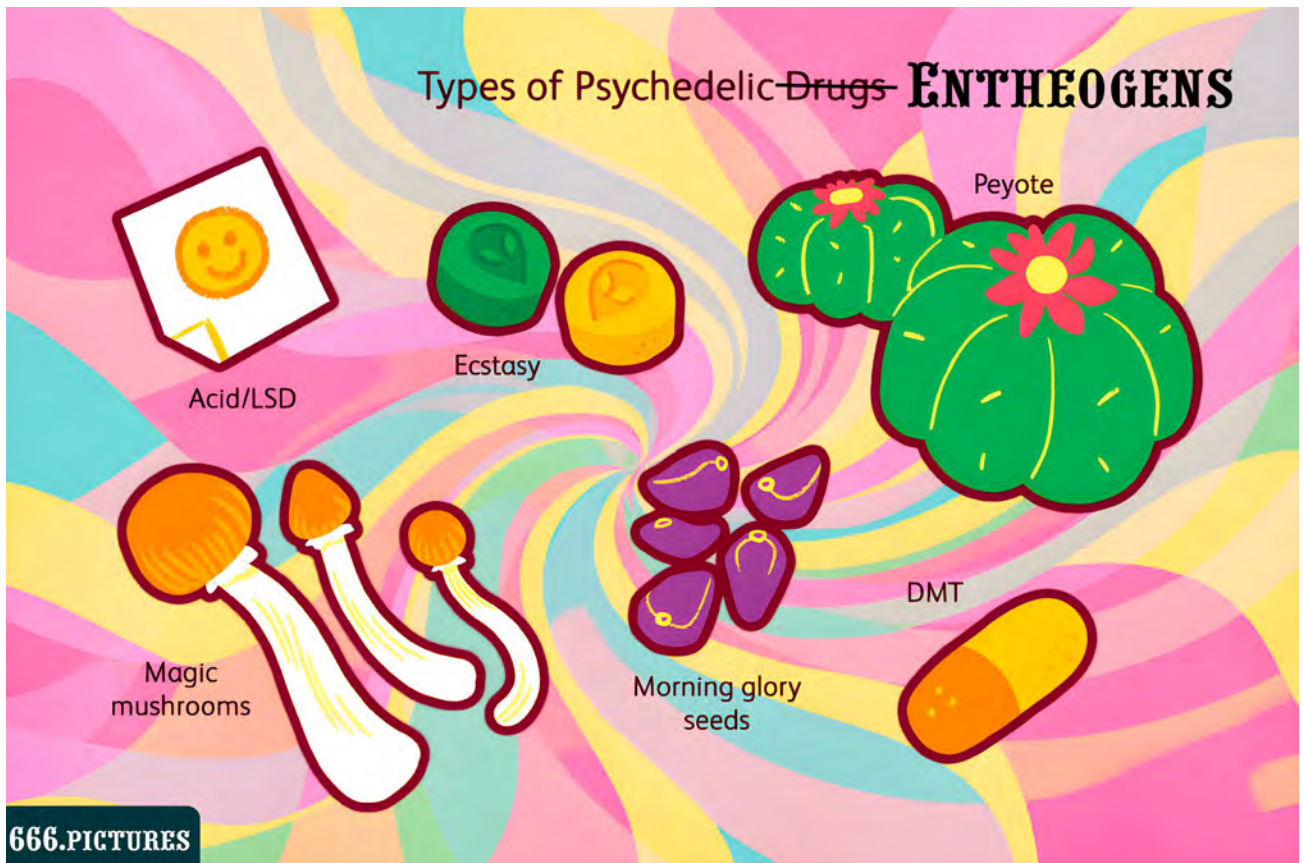

In writing the foreword, I will use quotes and references to various scientific and empirical studies on psychedelics, the spiritualization of people with entheogens, and the Spirit of Satan, which misinterpret the terms psychedelics, God, spiritualization-religion, and the Spirit of Satan. For those involved in science, the difference between religion and personal spiritualization, and the difference between a fictitious god and the Spirit of Satan, remains unclear. The main errors in the research texts that the Antichrist will cite are as follows:

1. Please note that marijuana, THC, and red (or panther) fly agaric are mild psychedelics that the Antichrist Slut Sodomia, recommends for everyone – they are depicted on the flag of gay Satanism. These beneficial flowers and mushrooms of natural origin, in addition to their psychedelic properties, have various healing and therapeutic effects on the human body. Some psychedelic researchers ignore such "gentle and mild" entheogens in their research, instead resorting directly to the "heavy artillery" of the most powerful psychedelics—LSD, DMT, and synthetic psilocybin. Of course, the effects of the most powerful psychedelics differ from the gentle effects of magical marijuana flowers and the "practically edible" fly agaric mushroom. Their effects are completely different. I clarify this aspect of psychedelic research before citing scientific studies.
2. I ask the reader to keep in mind that the term "god" in various studies always replaces the actual Spirit of Satan. No religious god exists, but the Spirit of Satan exists, inspiring each individual Satanist.

3. I ask the reader to keep in mind that many psychedelic researchers do not understand the difference between religion and religiosity and individual inspiration by the Spirit of Satan. They confuse sects with dogmas and pseudo-spiritualization with the real personal spiritualization provided by psychedelics. I will quote the researchers as they write in the original, but please do not assume that their terminology satisfies the Antichrist Slut Sodomia.

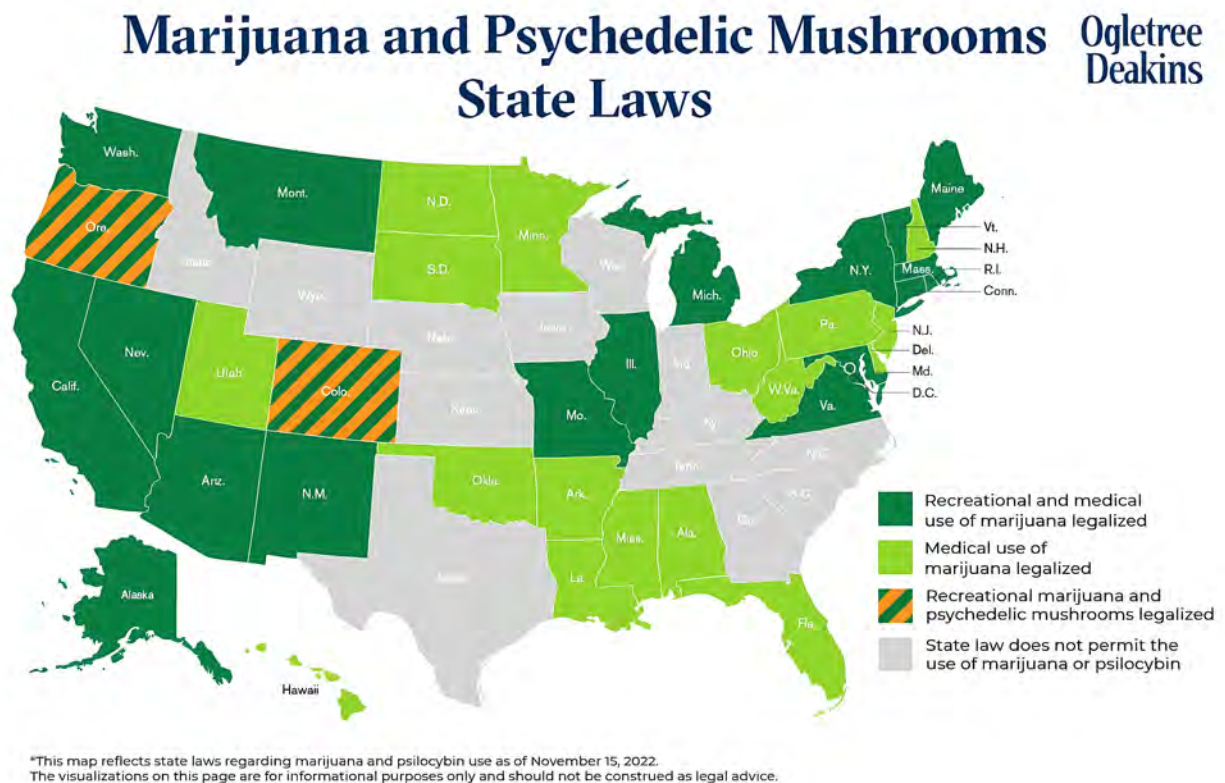

Let's first define the term surrealism, which forms the basis of the image gallery in the gay Satanism almanac SatanArt #36. Surrealism is an artistic movement that explores the world of dreams, the subconscious, and fantasies. It is one of the most mysterious and inspiring genres, where the boundaries of reality are blurred and the images are astonishing in their unexpectedness. In this article, we will examine the history of surrealism, its main features and representatives, as well as representatives of the authorities, and how to create your own surrealist work.

Who invented surrealism? Surrealism is the product of the collective efforts of artists and writers of the time. However, one of the most famous representatives and founders of surrealism was André Breton. He formulated the movement's core principles and ideas. Surrealism is an artistic movement that emerged in the 1920s under the influence of psychoanalyst Sigmund Freud. Therefore, the style is characterized by allusions, paradoxical combinations of forms, and visual deception. Freud's ideas greatly influenced the work of the surrealists. The unconscious became a kind of "infinite storehouse" from which to draw subjects for their paintings. Surrealists used various practices, such as automatic writing and drawing, to draw images, themes, and ideas from their subconscious. Symbols were also sought in dreams and then brought to life—for example, the dangerous snake on the staircase of Pierre Roy's bourgeois home. Surrealism continues to evolve today. One of the characteristics of modern surrealism is the use of a variety of artificial media, including painting, sculpture, photography, and even digital technology.

It is also characterized by a disruption of conventional notions of space, time, and matter. Artists experiment with proportions and perspective, creating unusual forms by combining various objects and ideas. Wojciech

Siudmak is a painter, sculptor, and book illustrator from Poland. Siudmak creates paintings at the intersection of three styles: hyperrealism, fantastic realism, and surrealism. In his "Surrealist Manifesto," published in 1924, Breton described surrealism as an expression of a free and automatic stream of consciousness, based on the principle of chance and the subconscious. A total of four manifestos were compiled, the first two co-authored with the poet Yvan Goll. The first manifesto formulated the fundamental ideas and definition of surrealism: "Pure psychic automatism, aiming to express—either verbally, in writing, or by any other means—the actual functioning of thought. A dictation of thought beyond any control by reason, beyond any aesthetic or moral considerations." Other important figures in surrealism included Max Ernst, René Magritte, Salvador Dalí, Pablo Picasso, and many others. Artists of this movement sought to explore the unusual and unexpected, and used their works to explore the possibilities of the imagination and evoke conflicting emotional responses in viewers.

Working Principles of Surrealist Artists

Since Surrealism often addressed the unconscious, dreams, and images, its working principles were also unusual. Surrealist artists utilized automatism, original interpretations of objects and phenomena without any connection between them, and also subverted ethical codes. They created works of art based on arbitrary associations and the expression of subconscious fears and thoughts.

Automatism

One of the main principles of Surrealism, laid out by André Breton in his first manifesto, was automatism. This is a technique in which the author or artist embarks on a mental journey and works in a state of intuitive flow. The final result remains primary and requires no additional editorial intervention. The main idea of this approach is the influence of chance on the originality of the result. To achieve this result, the following practices were used:

Automatic Writing

The author begins writing words, phrases, or sentences without prior planning or thought. Writing becomes a kind of meditation, where the artist relinquishes control over the content and allows the unconscious to guide the pen. Decalcomania

This is one of the Surrealists' favorite pastimes, combining liquid paint and a couple of sheets of paper. The artist would apply paint to the canvas and, while it was still wet, place a sheet of paper underneath. This created a complete work.

Frottage

This approach involves rubbing graphite onto any desired surface. The artist would take a sheet of paper, the desired material, and a pencil. Then, one by one, they would place the desired objects under the paper and draw hatches with the pencil.

Scratching

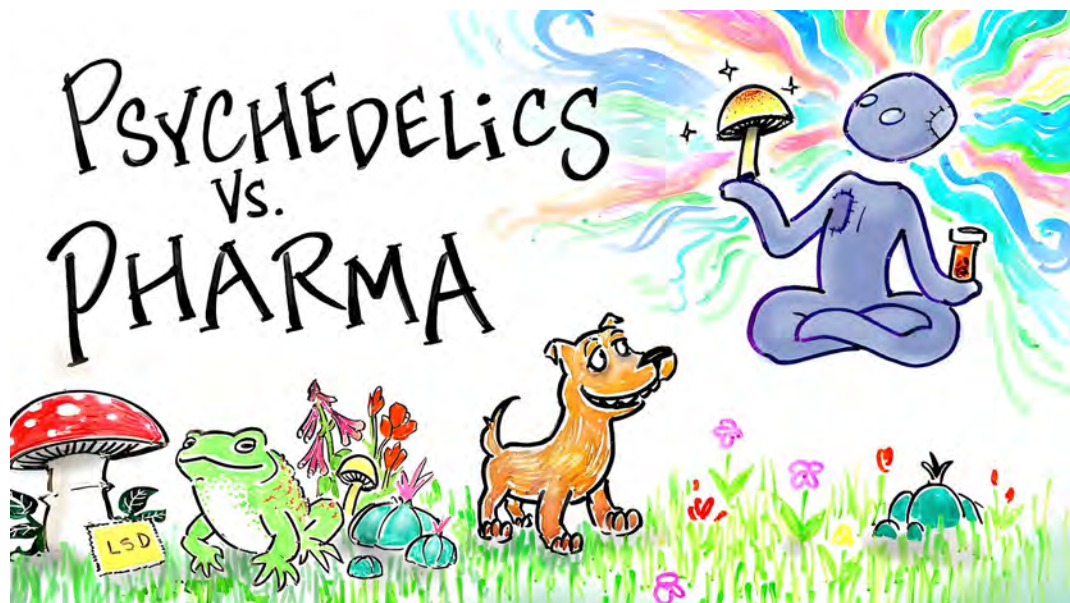

The deliberate destruction of a material using sharp objects. The focus of scratching is the material itself, which is being manipulated. The artist used a material to be pierced and then applied patterns or brushstrokes in a chaotic manner using sharp objects.

Irrationality

The irrational in surrealism manifests itself in the use of unexpected, illogical combinations of objects, symbols, and scenes, which can evoke a sense of strangeness and contradiction. Surrealists sought to convey the unusual and elusive nature of reality, to subvert conventional notions and logical connections. They conveyed utter madness and mocked the clarity of objects. How is this reflected in the paintings:

1. The absence or non-observance of the laws of physics;
2. The violation of the composition and true dimensions of objects;
3. A fragile reality that crumbles across the canvases.

In the world of surrealism, everything was unstable, and the artists could imagine anything. Objects acquired an illusory quality: they became translucent, overlapped each other, and resembled hallucinations¹.

Let's clarify what psychedelics and entheogens are. These terms are very similar and practically synonymous when it comes to psychedelic substances beneficial for personal development.

Entheogens, also known as psychomimetics, hallucinogens, or psychedelics, are psychoactive substances that induce profound alterations in perception. The word "entheogen" comes from the ancient Greek words "entheos" (divine) and "genesthai" (to generate) and indicates a connection with the inner divinity; it is typically used when substances are taken with spiritual intent or when they have a spiritual effect. "Entheogen" is the preferred term of the "Decriminalize Nature" movement, which aims to change laws against "entheogenic plants and mushrooms" or reduce the priority of enforcement of these laws. In a number of US cities, this movement has successfully achieved its goal. Many psychedelic users report mystical experiences, especially during sessions with high doses. Some research suggests that these experiences can have a profound and lasting impact on behavior and outlook. Among scientists, the term "mysticism" refers to a broader range of phenomena that can include visions, voices, and occult experiences, while the terms "mystical experiences" or "mystical experiences" denote a much narrower category.

Mystical experiences, according to philosopher Walter T. Stace, are characterized by a sense of profound unity, expressed by the idea that "All is One"; a sense of this "One" as consciousness or living presence; a sense of the reality of the experience; a deeply felt positive mood; a sense of approach to the sacred or divine; paradoxicality; and a sense that the experience is difficult to express in words. Similar characteristics were noted by the American psychologist and philosopher William James in the early 1900s².

The use of psychedelic drugs—also known as entheogens—can alter our religious beliefs. For example, several studies based on cross-sectional survey data have found that psychedelic use can increase belief in God and decrease belief in atheism. However, these studies have also shown that belief in monotheistic religious traditions can decrease with psychedelic use, favoring spiritual beliefs about a "Ultimate Reality" rather than

² <https://psychedelics.berkeley.edu/religion-spirituality/> Psychedelics (Entheogens) and Spirituality. UC Berkeley Center for the Science of Psychedelics.

God per se. Similar studies have shown that psychedelic use is associated with certain political views, including a negative correlation with authoritarianism and a positive correlation with liberalism.

A small clinical trial of psilocybin (the psychedelic component of "magic mushrooms") for the treatment of severe depression found that support for political authoritarianism decreased after two doses of psilocybin administered weekly and persisted for 12 months.

Psilocybin Mushrooms for Mental Health

Other studies have noted that psychedelic use is associated with a "sense of connection to nature" (a subjective sense of belonging), which in turn is associated with "environmentally responsible behavior" (such as recycling, water conservation, and eco-friendly shopping), as well as objective knowledge of and concern about climate change. In light of these findings, some question whether psychedelic drugs can actually "change your political or religious beliefs," while arguing that the available evidence suggests that psilocybin

does "make people more liberal" and that "this relationship may be causal." If so, this would pose a threat to conservatives, who may view psychedelics even more negatively than they already do³.

Psychedelics inspired some thinkers to look beyond their professions, even institutionalized forms of knowledge, to explain psychedelic phenomena. While anthropologists and ethnobotanists sought answers by interacting with indigenous cultures, these psychedelic enthusiasts turned to paranormal phenomena as a source of inspiration. Spiritualism and medicine have a fluid relationship. In the late 18th century, the German physician Franz Mesmer popularized ideas about psychic energy, applying the concept of magnetism to human physiology. He also took an interest in hypnosis, giving this movement its name: mesmerism.

The idea that invisible energetic forces attract people and animals attracted followers of mesmerism, among whom were scientists and doctors seeking explanations for mystical or even simply puzzling phenomena. Spiritualism later emerged as a concept that combined these ideas, blending science and mysticism, sometimes touching on the occult. Drawing on eclectic influences, from electricity and physiology to

philosophy and occultism, Spiritualism never developed into a recognizable movement with legal or professional status, save for a few well-known clubs and local organizations scattered throughout history. Despite its ephemeral status, Spiritualism contributed significantly to the study of consciousness. Just as some psychedelic seekers peered into other realms in hopes of meeting God, experiencing a mystical adventure, or enlightenment, others were interested in the ability of psychedelics to facilitate communication across time and space. Parapsychology and paranormal research intertwined with Spiritualism in developing mechanisms for communicating with the dead or opening spatial planes of communication, such as telepathy. The term "telepathy" was coined by the Reverend Frederic Myers, founder of the Society for Psychical Research and a significant influence on Aldous Huxley⁴.

Mushrooms vs. LSD	
Threshold Dose: 0.5 grams	Threshold Dose: 20 µg (average strength of 1/5 tab)
Recreational Dose: 2.2 grams	Recreational Dose: 100 µg (average strength of 1 tab)
Average Duration: 5-7 hours	Average Duration: 8-10 hours
Visuals are often mythical, earthly, tribal, and spiritual	Visuals are often futuristic, scientific, infinite, and molecular
On Mushrooms, you are more likely to see eyes in a table, cave drawings on your walls, and faces may appear warped. If you look in the mirror, you may see yourself as an ancient human, an animal, an ancestor of yours, or you may have faces on both sides of your head. 	On LSD, you are more likely to see fractals, odd and abstract shapes, reptilian features, visualized sounds, changed colors, moving pictures, and patterns all over carpet and walls. 
Shrooms are often more emotional and spiritual than LSD. You are more likely to find flaws in yourself, which you can try to improve. Deep introspection is more common on shrooms, so shrooms can be helpful for resolving issues with one's self. Mushrooms are preferable to LSD if you want to explore yourself.	LSD is typically more fun and energetic than shrooms. You may find yourself thinking thoughts so abstract that they are nearly impossible to describe. You may also see sounds, or hear colors. You will sometimes come to realizations so grand that it seems you have solved the mystery of the universe. LSD is preferable to shrooms if your number one goal is to have fun.
Downsides: the unpleasant taste can cause nausea for some, and mushrooms are more likely to make you feel ashamed of yourself (but this can also be a humbling and necessary experience)	Downsides: LSD is more likely to cause neck stiffness in some. LSD is also less likely to cause personal growth than mushrooms, although it is still possible.
Prepare with either a fast or light food beforehand.	Prepare with a healthy and hearty meal beforehand. (Do not fast before LSD, as this can cause nausea and dry-heaving.)

Broadly speaking, psychedelics—sometimes called hallucinogens or entheogens (i.e., “reviving the god within”; Rook et al., 1979)—include substances such as psilocybin (“magic mushrooms”), lysergic acid diethylamide (LSD; “acid”), N,N-dimethyltryptamine (DMT), ayahuasca, mescaline, ketamine, and methylenedioxymethylamphetamine (MDMA; “ecstasy”). Psychedelic effects are varied and can be unpredictable (for a review, see Adey et al., 2021). Psychedelic effects can include distortion, enhancement, or amplification of human perception, cognition, and emotion (Preller and Vollenweider, 2018). Scientific interest in psychedelics increased dramatically in the 1950s and 1960s, with early researchers recognizing their therapeutic potential (Pollan, 2018). However, psychedelics are also fraught with controversy; psychedelic research was largely halted in the 1970s due to tightening pharmaceutical regulations and increasing social pressure to restrict research (Oram, 2016; Strassman, 1991). Although Nichols (2016) suggested that psychedelics are physiologically safe and do not cause physical dependence, their use carries important risks, including impaired decision-making (Nichols, 2016), “bad trips” (intense, frightening experiences; Barrett et al., 2016; Carbonaro et al., 2016; Johnstad, 2021), persistent changes in perception or mood (e.g., hallucinogen-induced persistent perception disorder; Halpern et al., 2018), adverse neurological side effects (see Parrott, 2014a, b), and legal issues in regions where these substances are illegal (Piletsky et al., 2021). Psychedelic use may also carry religious and spiritual risks, including spiritual anguish (citations removed for blind review). Evidence regarding the association between psychedelic use and psychopathology is conflicting, but there is sufficient evidence to classify psychedelics as a separate class of substance use disorders in the Diagnostic and Statistical Manual of Mental Disorders (5th edition; American Psychiatric Association, 2013). Psychedelics may exacerbate existing mental disorders, and some studies have found a weak association between psychedelic use and psychosis (Lebedev et al., 2021; Nutting et al., 2021). Because of these risks and controversies, psychedelic science remained largely stagnant until the 1990s. However, psychedelic research has recently experienced a significant upsurge (Apud, 2016). This recent wave of research has largely focused on the promising clinical applications of psychedelic substances in controlled settings, with an emphasis on the mechanisms underlying psychedelic effects (Mitchell & Anderson, 2024).

Many people experience psychedelic experiences that they perceive as spiritual or mystical (e.g., Barrett et al., 2015; Yaden et al., 2017), and psychedelic use can lead to enduring positive changes in a variety of mental disorders (Luoma et al., 2020). Similarly, we expected that changes in spirituality associated with psychedelic use might persist beyond the psychedelic experience itself, creating long-term changes that could include spiritual growth (or at least the perception of growth). For example, psychedelic experiences may prompt people to reflect on or re-evaluate ideas about spirituality and spirituality. Psychedelics can also lead to revelations about the divine, oneself, and the human condition, leading to lasting changes in philosophical or spiritual beliefs. Furthermore, psychedelics can evoke powerful feelings of empathy, compassion, and awe, inspiring a deeper understanding of the mysteries of existence and motivating people to greater altruism. Such changes can persist long after the psychedelic experience ends.

A tendency toward spiritual growth can be associated with mystical experiences, which are often induced by psychedelics. Profound mystical experiences can strengthen spiritual faith or inspire greater participation in spiritual practices. Intense mystical experiences can also encourage people to confront and overcome existential anxiety, leading to a deeper and more peaceful attitude toward life and death. Mystical experiences can also lead to a sense of connection with a higher spiritual reality, fostering a sense of oneness with the divine. Although the specific role of mystical experiences remains unclear, such experiences appear to contribute to the link between psychedelic drug use and spiritual growth.

Drugs World

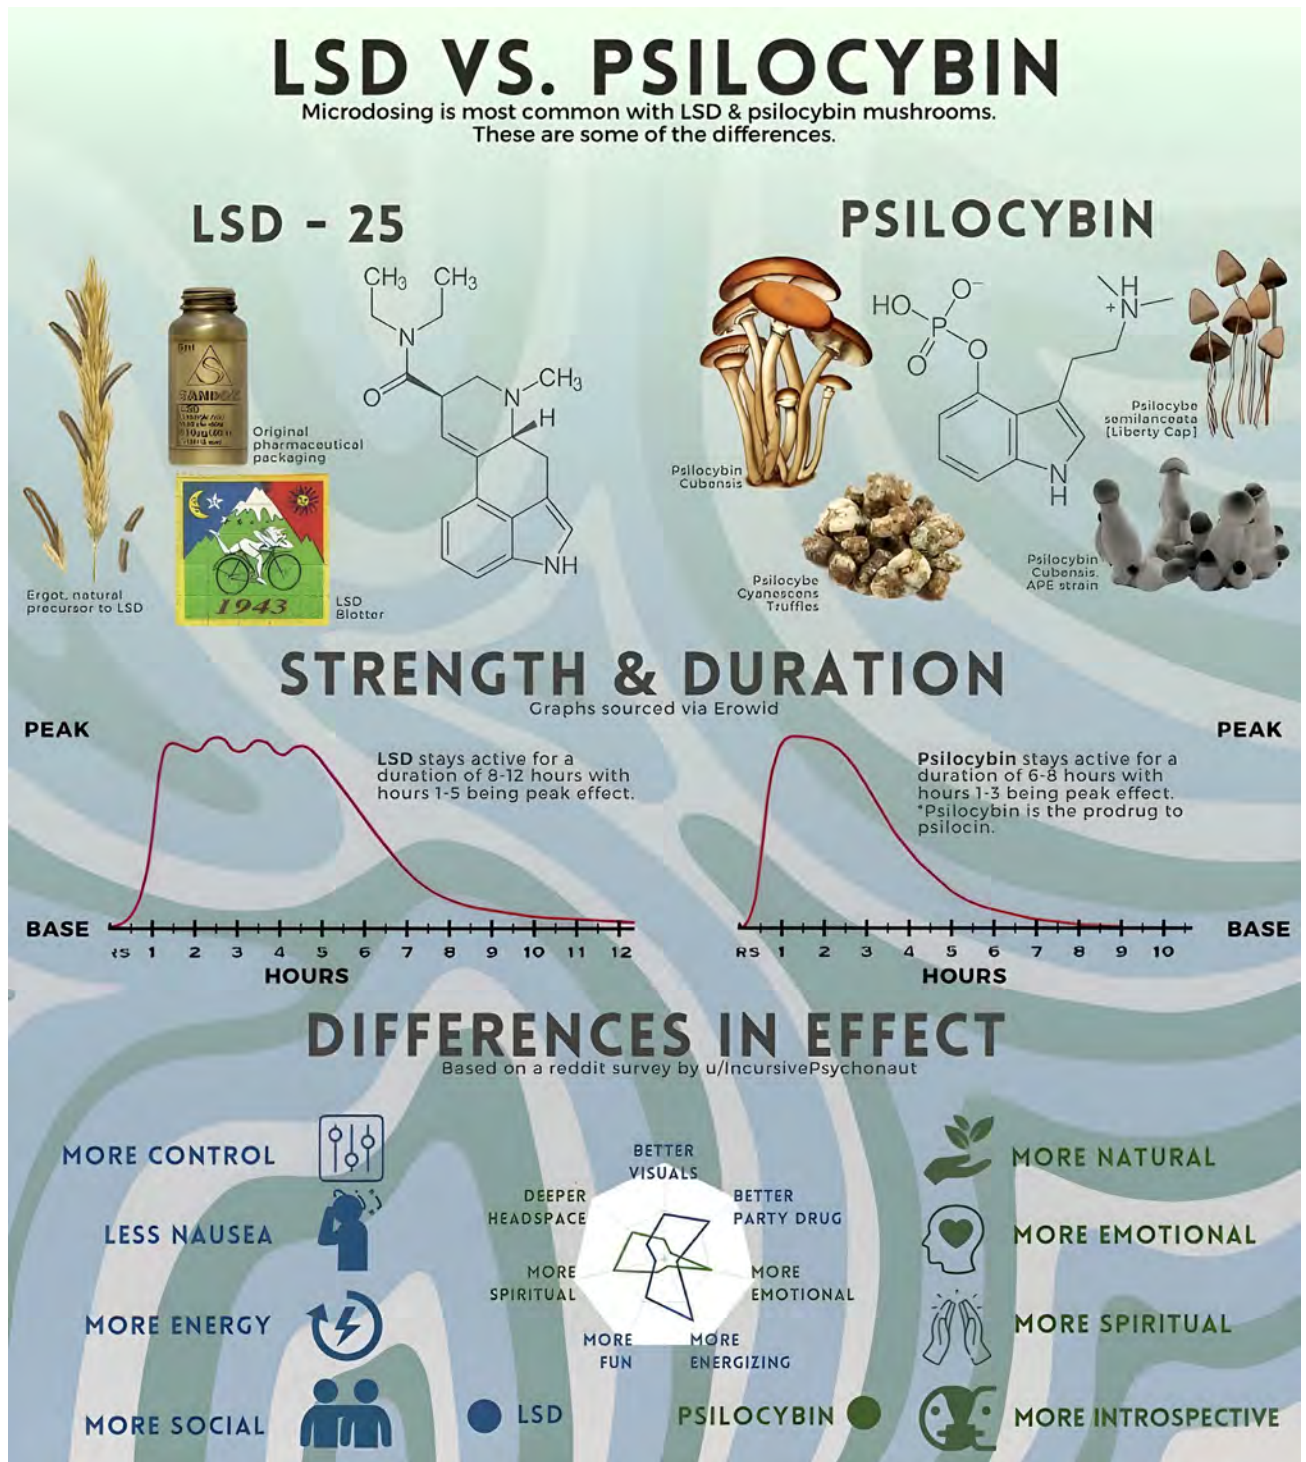

Of all the psychedelics studied, psilocybin was the most common, followed by ayahuasca and DMT. Researchers studying spirituality have focused more on classic psychedelics than on others (e.g., MDMA, ibogaine). This makes it difficult to determine whether certain substances have a stronger association with specific indicators of spiritual growth, as we found few studies conducting direct comparisons between psychedelic substances (and these substances were rarely compared under controlled conditions). Notably, many articles examined a variety of substances, but did not group participants by the psychedelic used. Two studies did not specify which substances the participants used. However, in some cases, researchers compared and found significant differences in the spiritual effects of different psychedelics. For example, when Sweeney et al. compared various substances in a 2022 study, participants in the ayahuasca and DMT groups reported stronger and more positive long-term effects from their psychedelic experiences than participants in the psilocybin and LSD groups, whose results were virtually indistinguishable.

As expected, many measures of spiritual growth were highly correlated. For example, people who experienced a sustained sense of unity after taking psychedelics often also experienced greater spiritual meaning, awe, self-transcendence, and connection with others. Many studies that reported one of these measures also reported others, implying the simultaneous manifestation of multiple spiritual aspects during and after the psychedelic experience. Positive changes in these measures were sometimes dose-dependent, with higher doses associated with greater changes. Additionally, in some cases, people reported longer-term spiritual benefits if they were already involved in religious or spiritual practices, used psychedelics with spiritual intentions, or used psychedelics in a religious or spiritual context⁵.

Over the past decade, cultural, academic, and clinical interest in psychedelics (such as DMT, LSD, and psilocybin) has steadily grown. This movement, known as the "psychedelic renaissance," was primarily driven by scientific research into the therapeutic potential of these substances and the extraordinary, often transformative experiences they can evoke. This interest has also extended to the humanities. However,

despite numerous studies, the relationship between psychedelics and religion (particularly theology and philosophy of religion) remains relatively understudied. The purpose of this essay is to provide an overview of this complex relationship, introducing some areas of research worthy of further consideration.

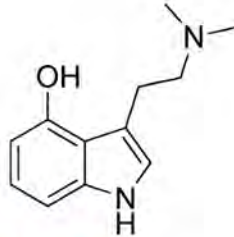

The reason for the lack of discussion in the literature may have historical roots. Before the advent of Christianity, psychedelics (and psychoactive substances in general) were apparently a central component of the spiritual life of many communities around the world. However, Christian leaders and institutions were often hostile to such practices, sometimes making great efforts to eradicate them. Some opposition has biblical roots (e.g., 1 Peter 5:8). In recent times, Christian leaders have often supported the war on drugs, suppressing psychedelic countercultures and driving research on these substances underground (see Deveno,

Conner, and Doyle). Moreover, this general hostility toward "intoxication" is not unique to Christianity. Islamic leaders have long supported prohibitions on intoxicants, and Buddhist institutions, while less aggressive in their opposition, have often favored traditional practices over psychedelics as spiritual tools (this is, for example, the position of the Dalai Lama).

However, contrary to what it may seem, psychedelic experiences have been shown to have much in common with the altered states of consciousness achieved by religious mystics through asceticism, meditation, prayer, or yoga. In the right frame of mind and environment, psychedelics blur the boundaries that characterize our

everyday perception of reality, often leading to a sense of interconnectedness between ourselves, others, nature, and the cosmos as a whole. This blurring can even lead to states of partial or complete oneness with nature, consciousness itself, or God, also known as "mystical experiences." For much of Western history, these states were considered the exclusive preserve of religion.

Parallels between psychedelic experiences and "traditional" religious experiences have important implications. First, psychedelics appear to make spiritual and religious experiences accessible to a larger number of people, thereby reducing the need for a mediator (although the presence of an experienced guide is highly recommended) and for a commitment to ascetic and holy living. Why turn to a priest, monk, or other religious specialist when one can encounter God in the comfort of one's home or in a therapist's chair? Second, by emphasizing interconnectedness, psychedelic drugs appear to promote horizontal thinking,

thereby undermining hierarchical structures and dogmatism. Similar anti-institutional ideas have been promoted by mystics throughout history.

According to some, mystics more or less consistently promoted universalism and tolerance, and were just as consistently persecuted for their teachings. The persecution of Sufis in the Muslim world is a good example. It should be noted, however, that the interaction of religion and psychedelics rarely seems to leave religions unchanged. In general, psychedelic spiritual experiences seem to make people more receptive to syncretism,

that is, to borrowing elements from different religions and belief systems. This tendency may be explained by the aforementioned similarities between psychedelic experiences and spiritual experiences described in various religious traditions. Thus, it is common for theists who have received psychedelic training to imbue their religion with a monistic flavor, bringing them closer to animism, pantheism, Neoplatonism, or even some forms of Vedantism. Similarly, a psychedelic user may combine Buddhist ideas with a generally secular worldview and a respect for the shamanic healing practices of some Native American traditions. Certain "spiritual" ideas, such as energies and synchronicities, may also be added to the mix.

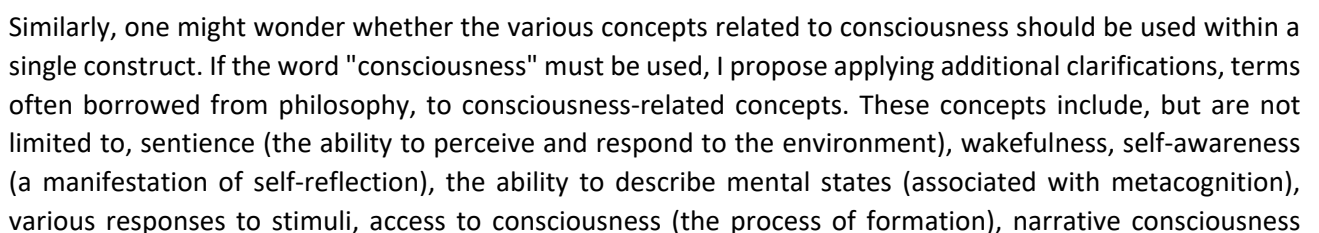

Recent advances in psychedelic research further complicate our analysis. Some scholars, for example, emphasize how the narrow focus on mystical experiences that dominates modern research can obscure the complexity of psychedelic experiences. To cite just one factor, psychedelic experiences have been found to often include encounters with seemingly intelligent beings—encounters that bear striking similarities to religious experiences involving angels, deities, or spirits. What do these similarities mean for the nature of religion, the human mind, and (who knows) the cosmos?

Another development related to religion is the recent critique of the "universal cure" mentality that has often accompanied the psychedelic revival. Some authors argue that psychedelics should be viewed not as magic pills, but as neuroplasticity-promoting agents that can, in and of themselves, provide both healing and dangerous abuse. For example, an egomaniac surrounded by sycophants, instead of becoming more open and appreciative of nature, might emerge from their psychedelic experience with an irreversible God complex. A hint of this possibility was already noted in the famous "Good Friday Experiment"—a double-blind study in which ten theology graduate students were given psilocybin. For most, the experience was incredibly positive, but it was often overlooked that one student became convinced he had been chosen to announce the return of the messiah. Does this event have any bearing on our understanding of messianism or religious prophecy?

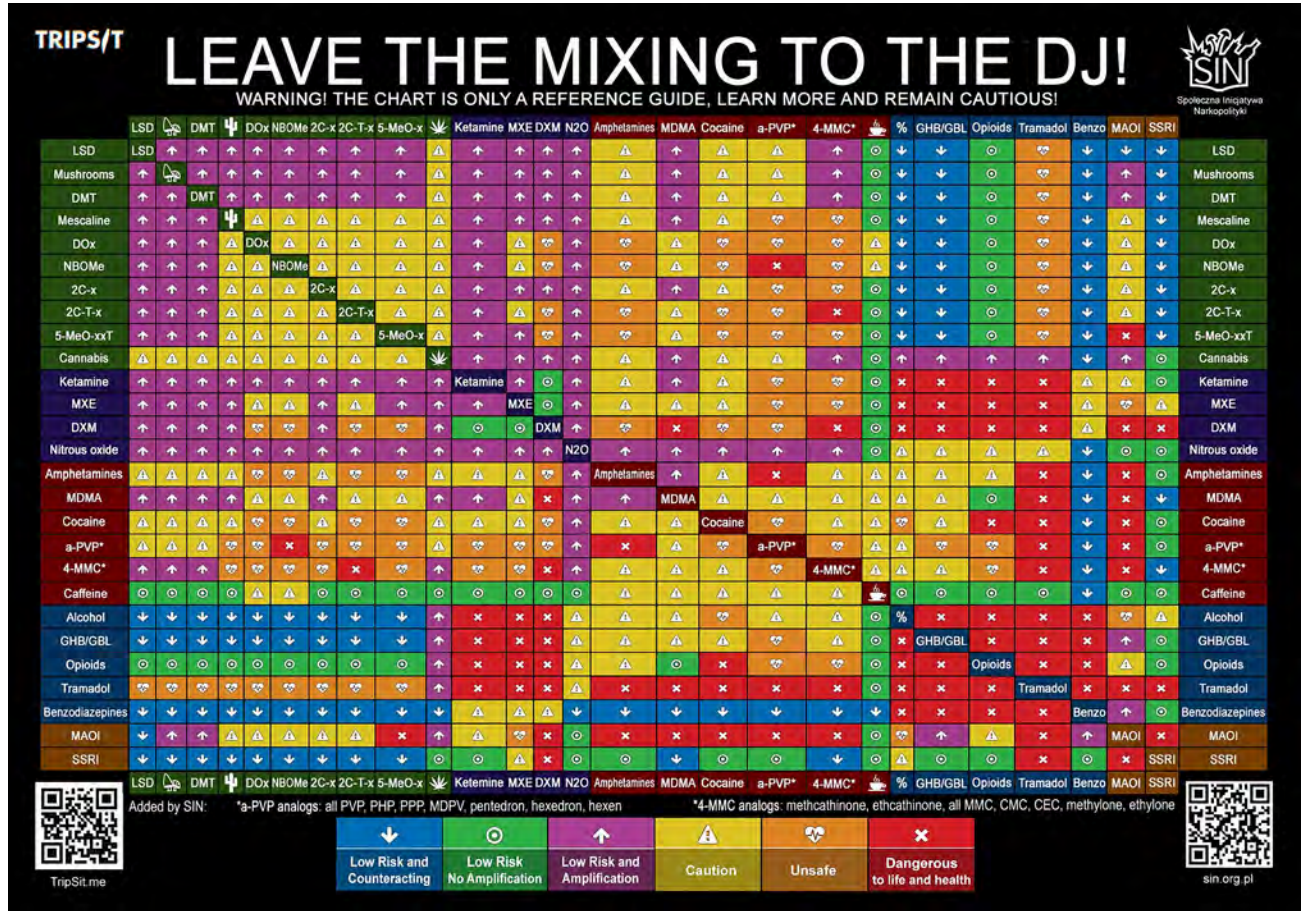

Clearly, research into psychedelic substances serves as a source of inspiration for religious scholars. Moreover, the contributions of these scientists appear crucial for a comprehensive understanding of the nature, meaning, and effects of these substances, as well as the extraordinary states of consciousness they can induce⁶.

Over the past 20 years, promising therapeutic results have been published. Classic psychedelics, which act as serotonin 2A receptor agonists, and methylenedioxymethamphetamine (MDMA), which is a non-classical psychedelic, act as a serotonin release stimulant. Classic psychedelics include: Psilocybin has shown promise in the treatment of cancer. Depression and anxiety, tobacco use disorder, alcohol use disorder, and major depressive disorder. Additional research is being conducted on lysergic acid. Diethylamide (LSD) and ayahuasca (containing dimethyltryptamine); Disease-modifying drugs (DMTs) have also shown effectiveness in the treatment of anxiety disorders associated with this life-threatening illness and major depressive disorder, respectively. MDMA has shown promise in the treatment of post-traumatic stress disorder (PTSD). The results are striking, not only because of the significant treatment effects observed, but also because of the treatment model and dosing regimens used. Unlike typical psychiatric medications, which require long-term use, these psychedelics were administered only once or a few times, after preparation, monitoring, and follow-up care. However, they have demonstrated sustained clinical benefits, in many cases lasting at least months or even a year. These treatments help bridge the gap between psychology and psychiatric medications, as the biological effects of the drugs stimulate experience and probable behavioral plasticity, enabling learning more akin to psychotherapy or the exploration of important life events. For this reason, it seems fair to characterize psychedelic therapy as a paradigm shift in psychiatric treatment. Beyond

(stream of consciousness), information integration, and behavioral control. Another concept is phenomenal consciousness, which is experience itself⁷.

In the introduction, I discussed the basic concepts of psychedelia and surrealism. These two concepts are interconnected with Satanism, human consciousness, and the spiritualization of each individual human being. Please remember that spiritualization can only be individual; group spiritualization has a different name and is called the EGREGOR of religion. Group egregors of society are very often used by evil to undermine individual spirituality, when the herd-like desires of the egregor's populists replace personal spirituality. Entheogens act in the opposite way – they create a personal connection with the EIQT and deprive evil egregors of their power.

Here's the definition of EGREGOR from Wikipedia: *Egregor (from the ancient Greek ἐγρήγορος, meaning "awake") is a concept, term, and concept in occultism and esotericism, denoting a non-physical entity or group biofield. Proponents of esoteric theories suggest that more or less large human communities are capable of generating their own energy field under the influence of their shared goal (the egregor of a creative school, the egregor of a state, the egregor of a religion, the egregor of Satanism, etc.). Community members can experience a sense of belonging ("connection" to the egregor that unites them) and increase their personal energy potential⁸.*

What is an egregor in simple terms? It's a collective spirit—an energetic, informational substance that unites people, thoughts, and ideas into a single system. Small groups of like-minded individuals share something in common, something that helps them unite into a team. This is the egregor; without it, the team will fall apart.

⁸ <https://ru.wikipedia.org/wiki/Эгрегор> Wikipedia. Egregor. This ancient Greek word (Ancient Greek: ἐγρήγορος, literally "awake") sometimes denoted angelic spirits. It appears in the Book of Enoch (apocrypha). One of the first authors to use the word "egregor" in modern languages was Victor Hugo (Legends of the Ages, 1859); he mentioned the term as a noun with an unclear meaning.

Psychedelics and surrealism are linked by their ethereal perception of our world, through the prism of magic, spirits, distorted reality, fairytale images, and phantasmagoria. This is the connection between psychedelic exploration of the quantum world and the magic of gay Satanism.

A more detailed introduction to the text of this anthology, SatanArt #36, will be prepared by Antichrist Slut Sodomia in a second, commercial version of this publication, intended for sale. Gay Satanist publications are available at Gay-Satanism online stores.

DEDICATION-ABSTRACT OF THE ALMANAC OF VISUAL ARTS OF GAY SATANISM SATANART №36

I dedicate SatanArt #36, the almanac of Satanic art, to the speedy legalization and recognition of the importance of psychedelic entheogens for the mental development of individuals, for the spiritualization of people, and for raising the awareness of all humanity. Entheogens are the glitches that connect the disparate human bodies and primate brains into a single network of the Satanic Spiritual Network (EIQF), forming an egregor of Satanism that opposes the egregors of evil and human unfreedom. The main element of the Satanic egregor is, of course, the Spirit of Satan himself, but psychedelics are important keys for people to access the world of psychedelic Satanism, directly merging with the EIQF and Satanism. By publishing SatanArt #44, an

almanac of satanic art, I hope to convey to the general public the importance of entheogens for humanity through a surreal presentation of entheogen psychedelia and a quantum representation of the mirage of reality. The physical world consists of a quantum set of information, and this world exists in an altered, fluid state, even if it seems that the matter of our world—stones, glass, metal—is unchanged. Everything moves and changes, but it's simply invisible to the normal human eye, without entheogens. Psychedelic keys allow us to see this in reality, and these are not hallucinations, as this fact is presented in pop culture to the biomass of planet Earth through SOCG propaganda (including textbooks) and through lies about entheogens in the media.

The Antichrist Slut Sodomia has posted some albums of the Puritan editions of the gay Satanist almanac SatanArt (Nos. 1-30, Puritan albums, Version 1) on public Internet platforms as free e-books in PDF format. However, not every issue of the gay Satanist almanac SatanArt is available free of charge in high quality or in full. All issues of SatanArt almanacs are sold on gay Satanist online stores as digital ZIP archives. The ZIP archive includes the original files in DOCX and PDF formats, plus individual images from the collection in JPG, PNG, and WEBP formats, all in high quality. You can find SatanArt almanacs from the Antichrist Slut Sodomia using search engines such as Google, Bing, and DuckDuckGo. The digital store for gay Satanist publications operates on the principle of absolute buyer honesty, i.e., The buyer receives the goods first and only then pays with cryptocurrency. This is rare in the modern world. Complete versions of the "Gay Lust" grimoire, for reading or publishing in paper form, are also available for purchase on the Gay Satanism Store website. To publish books and almanacs in paper form, you will need the source files, in DOCX format, for layout and for correcting minor grammatical, syntactic, and other technical errors.

I would like to announce two changes in the publication and free distribution of SatanArt releases, for all subsequent issues of the Puritan publications, i.e. starting with SatanArt issue #31 of the first version and for all second versions of SatanArt of the old releases.

The first change is a change in the name of the SatanArt form itself. The Antichrist will refer to this and all subsequent issues of SatanArt magazine as Almanacs. An almanac (from Arabic: **أَلْمَنَاخ** "astronomical calendar") is a type of serial publication, an ongoing collection of literary, artistic, and/or popular science works, united by some characteristic (thematic, genre, ideological, artistic, etc.). Unlike a almanac, it is usually published annually, not always with the same frequency, or is a non-periodical collection altogether, containing information from various areas of social activity, usually highlighting literary novelties, scientific achievements, legislative changes, etc. ⁹.

THE DOCTRINE OF ABSOLUTE HONESTY OF BUYERS

BY THE ANTICHRIST SLUT SODOMIA.

The renaming of the "Gay Satanist Art Magazine" to the "Gay Satanist Art Almanac" was done because this form of literary work better reflects the essence of SatanArt publications:

1. Each SatanArt issue is dedicated to a specific theme, which is more similar to literary almanacs than to almanacs. The Antichrist has outlined many different themes for SatanArt almanacs to cover. The one that connects them all is gay Satanism. All almanacs are divided into PURITAN issues and SEXY issues. This choice is based on the issue's theme and illustrations. Puritan almanacs will not contain pornography or explicit erotica. Such e-books can be posted on many public Web 2.0 sites¹⁰.
2. SatanArt is not published regularly, but I hope it will be more than once a year. I plan to publish 6-12 almanacs per year.

The second change concerns the free distribution of the first versions of new SatanArt almanacs. There will be a free version and a commercial version of SatanArt, in PDF format. The differences between the free NON-COMMERCIAL version of the new SatanArt almanacs and the COMMERCIAL version are as follows:

1. All first versions of new SatanArt almanacs will be NON-COMMERCIAL, distributed free of charge online, so that anyone can access them without payment. Free SEXY versions of SatanArt cannot be

posted on every public online platform, as pornographic/erotic books are prohibited on many public Web 2.0 websites. Please keep this in mind (the Antichrist doesn't like the puritanical rules of site owners, but these are their sites, therefore their rules).

2. The preface in the free version of the SatanArt almanac will be limited to 3-5 pages of topic description. In the commercial version, which I call the SECOND VERSION, the preface will be expanded and expanded six to ten times, turning the almanac into a book. The second version of the Gay Satanism publications is an improved and expanded version of the first version and is the COMMERCIAL VERSION of the Gay Satanism publications. It can be purchased in Gay Satanism stores.
3. The Antichrist will only make available free PDF versions of SatanArt, which have compressed images, a loss of image quality, and are suitable for viewing on a monitor or mobile device, but not for high-quality printing. These will be SMALL FREE versions of the almanacs. These small PDF versions are approximately three to five times smaller than their commercial counterparts in maximum quality.
4. Paid versions of the SatanArt almanacs will be available in maximum quality, in DOCX, PDF, EPUB, and DVJU formats, and will be sold for a fee on Gay Satanism stores. These COMMERCIAL editions are intended for publication on paper, in print, or for collectors of high-quality e-books.

Commercial versions of Gay Satanism books and almanacs will be sold in the Antichrist Slut Sodomia stores. This is my plan to monetize my literary work on Gay Satanism. The Gay Satanism digital edition store accepts cryptocurrency payments, but payments can also be made by traditional bank card through reliable cryptocurrency wallets or reputable cryptocurrency exchanges. More information about cryptocurrency and its importance can be found at the end of SatanArt almanac from Antichrist Slut Sodomia. Cryptocurrency is the future! If you haven't yet started using cryptocurrency, start as soon as possible, for example by purchasing e-books of Antichrist Slut Sodomia.

The Antichrist Slut Sodomia introduced his gay Satanist publications to the world public free of charge. During this time, I honed my skill in compiling e-books in PDF format. These books are now worthy of commercial sale and publication in paperback. **In order to monetize and commercialize gay satanism publications, I am transferring all gay satanism publications to the new Creative Commons CC BY-ND 4.0 International license¹². This new COMMERCIAL license applies to all Gay Satanism publications.** You can still distribute Gay Satanism publications and sell Gay Satanism publications for 20% of the profits (for paperback editions) or revenue (for ebooks), but now with an officially applicable commercial license.

The second versions of The Antichrist Slut Sodomia's e-books receive design improvements, expanded content, and a new, commercially-compatible license.

On November 13, 2025, Antichrist Slut Sodomia received her first Bitcoin donation to her cryptocurrency wallet. Thanks to my first sponsor, who transferred \$20 USD to my account. It was a nice bonus for my efforts. Bitcoin transfer fees are quite high. For a \$20 transfer, the fee was \$3-4 USD. For many altcoins, the transfer fee can be significantly lower, even tens of times lower. Altcoins are all cryptocurrencies created after Bitcoin.

Psychedelics connect human consciousness with the HIPC and Satan in a completely real way. The effects of psychedelics aren't hallucinations of something that doesn't exist, but of something that really exists but is invisible without psychedelics. Even the most intense hallucinations in our world are commonplace for Satanists in Hell. Psychedelics don't cause addiction or poisoning.

Image 3502. The human body is the temple of the human spirit. Psychedelics are the keys to connecting the human temple (the animal body) with the EIQF and Satan. Everything consists of quantum information, including psychedelic keys.

Image 3503. A psychedelic depiction of the connection between Satanism, science, and nature, at the level of the EIQF and the quantum observer. Life is connected to death, nature is connected to the animal body, and the spirit is connected to quantum cognition of reality through psychedelics.

Image 3504. An artistic representation of a deep psychedelic trip at the level of a bad trip (presumably a DMT or LSD trip).

A bad trip, literally translated, means a negative psychedelic trip, during which a profound restructuring of the individual's consciousness and the connection of consciousness to the HIPC occur. For most people, a bad trip is an unpleasant experience, but it brings positive changes to the personality through healing, awareness, self-understanding, and the erasure of unnecessary and harmful egregors.

Image 3505. The unique effects of beneficial psychedelics include their calming effects, awareness, and the activation of consciousness and understanding of evil. Psychedelics attune a person to goodness and a connection with Satan. Psychedelics align a person's consciousness against fascists, states, wars, militarism, the greatness of nations, and patriotism. This is why psychedelics are so banned by fascists all over the planet Earth. Psychedelics are antagonists to fascism, propaganda, and the SOCG, focusing on individual self-inspiration, empathy, and introversion.

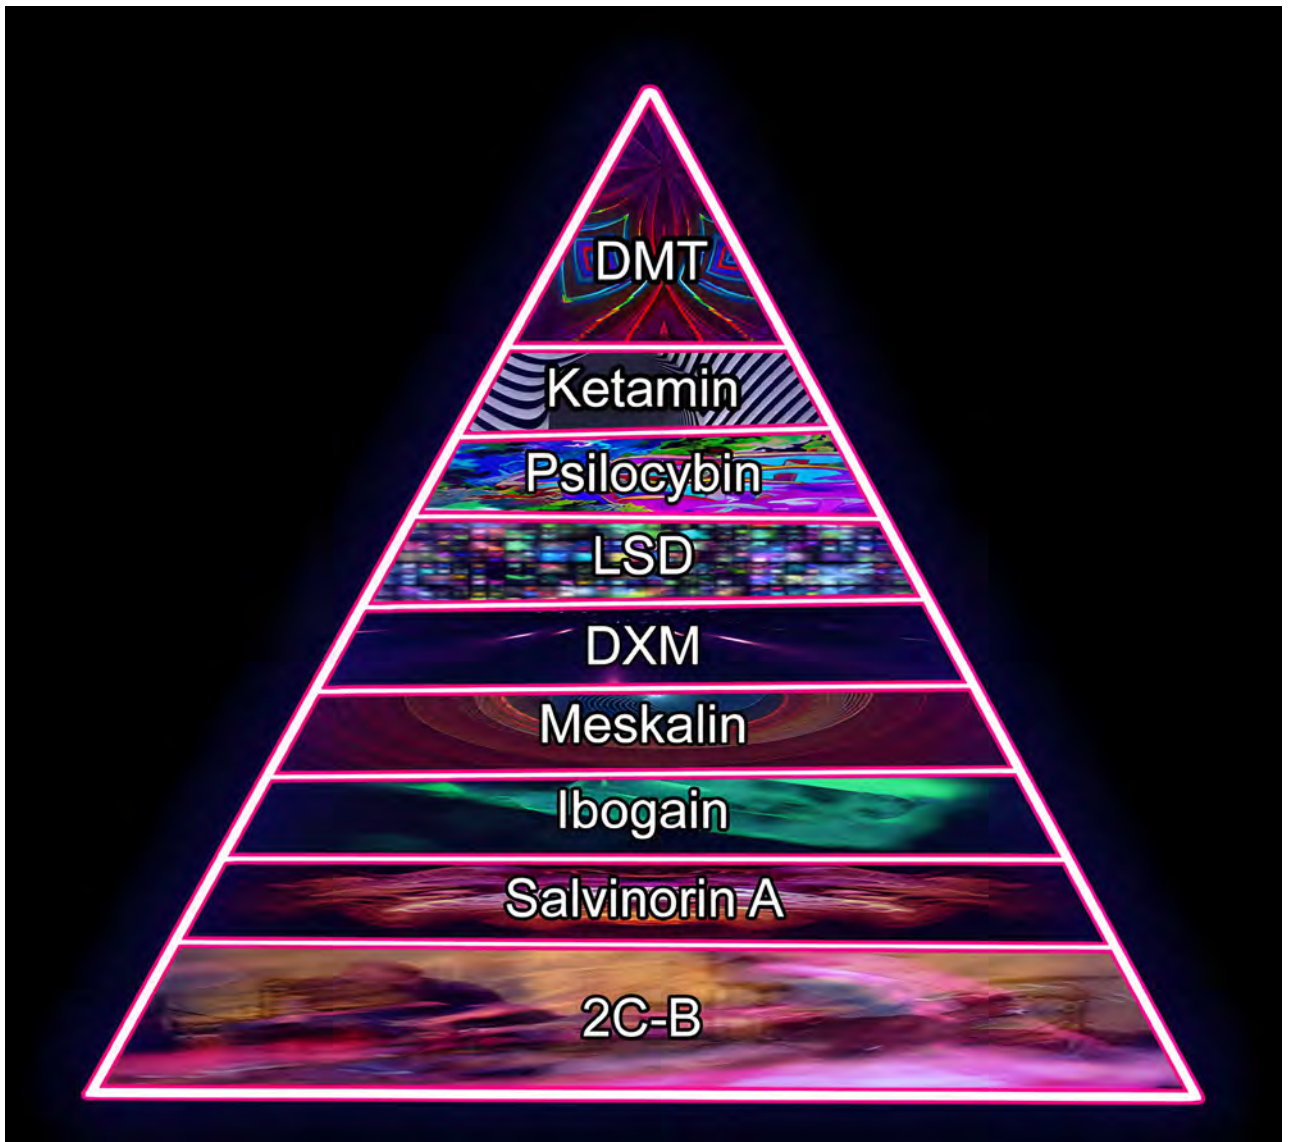

Image 3506. A pyramid of the most powerful psychedelics. In my opinion, the pyramid is constructed incorrectly in terms of depth and potency, but perhaps that wasn't the pyramid's creator's intention.

The most powerful psychedelics are DMT and Salvinorin A, IMHO. Slut Sodomia hasn't tried them personally, and this is a theoretical assumption based on trip reports from others. Please keep in mind that the most powerful and profound psychedelics don't necessarily mean the most enjoyable. The best for beginners are marijuana, THC, psilocybin mushrooms, and fly agaric. Fly agaric has a gentle, deep effect and is accessible to almost everyone, unlike the psychedelics in this diagram.

Image 3509. Mother marijuana and the key psilocybin. "We are all sane here" = "Everyone here is sane" (translated from English). Psychedelics don't make people crazy, unless they already have impaired communication with the EIQF. Psychedelics reveal quantum connections in such fantastic images that they can seem like delusions or hallucinations. The shifting forms of Hell and Black Magic always reside in such images. Psychedelic surrealism and entheogens are an important component of gay Satanism.

Psychedelics connect the unconscious brain and dissolve the ego (self-awareness) in their ocean. This is an exit to a new level of perception of our world and parallel dimensions.

A psychedelic trip is like a leap into the unknown, where the familiar boundaries of reality dissolve and the mind gains the long-awaited freedom to explore new horizons. These experiences can be filled with vivid images, profound insights, and unexpected realizations, opening the door to transformation and growth. However, to ensure this experience doesn't become just a fleeting memory, it's important to learn how to properly end the trip, preserving its value and using the knowledge gained to improve your life. How can you transform what you saw and experienced during the trip into a source of inspiration and real change? This requires a mindful approach, including a gentle return to everyday life, understanding the insights, and integrating them into your reality. Today, we'll explore key steps that will help you emerge from the trip with minimal stress, preserving its full significance, and make the trip not only a vibrant adventure but also an important step in your personal development ¹³.

Cannabis and psilocybin mushrooms are one of the most popular combinations. While writing this article, I interviewed nearly 90 people who use mushrooms and marijuana. Just under half of them used both substances simultaneously. They had very different reasons for using them, mostly the same as those for which people generally smoke cannabis: to relax and reduce the nausea that sometimes occurs during a mushroom trip. Another reason is to prolong the psychedelic effects of psilocybin, especially the visuals that occur with both open and closed eyes. Nikola Djordjevic, a medical consultant at Loud Cloud Health, confirmed that many people experience heightened experiences when mixing cannabis with psilocybin. My personal experience confirms this. After marijuana, a mushroom trip becomes even stranger and even more psychedelic. I suspect psychonauts who regularly use cannabis will be able to tolerate this combination, but those trying either substance for the first time should refrain from such experiments ¹⁴.

Lewis Carroll's *Alice in Wonderland* is more than just a children's story; it has long attracted the interest of psychologists, philosophers, and enthusiasts of psychedelic culture. The idea of Alice's journey through a strange, bizarre world evokes the experience of a psychedelic trip—a transformation of perception, a disruption of familiar logic and space. In this article, we will examine in detail why this classic story is perceived as a metaphor for a psychedelic journey, drawing on artistic imagery, symbolism, and narrative features. A psychedelic trip is a state of consciousness induced by psychoactive substances, in which the perception of reality is distorted, time flows unusually, thoughts become nonlinear, and feelings and emotions intertwine in strange patterns.

Основатель организации Cosmic Sister ("Космическая сестра") Зои Хелен утверждает, что конопля – это психоделик. Дэниел Маккуин, сотрудник медицинского центра в Колорадо, учился проводить психоделическую терапию с использованием MDMA. Маккуин решил заменить экстази на коноплю и достиг поразительных результатов: "У людей были полноценные психоделические трипы, будто они употребляли псилоцибин, MDMA или аяаску. Многие участники сессий получали опыт, соизмеримый с трипом под DMT: полноценные визуальные эффекты, осознание единства со Вселенной, связь с духами и божественной сущностью, глубокое познание себя и своей жизни. Всё, с чем вы ассоциируете психоделики, становится возможным, если употреблять коноплю правильно". Таким образом, вместо конопляной церемонии можно применять любую психоделическую терапию, заменив психоактивное вещество на марихуану. Подробную информацию о методах использования каннабиса в качестве психоделика можно узнать в книге Маккуина *Psychedelic Cannabis: Breaking the Gate*¹⁵.

A "bad trip" is a "lousy journey," and this description perfectly captures the essence of what's happening. The only difference is that the journey isn't physical; it happens in your head. More scientifically, a bad trip is an extremely unpleasant, negative, and even psychologically dangerous experience that occurs when you're under the influence of psychoactive substances. Psychoactive substances primarily refer to psychedelics: LSD, tetrahydrocannabinol (a cannabinoid), mescaline, and psilocybin (found in hallucinogenic mushrooms). Other psychoactive substances can also cause a bad trip. Psychedelics are unique to each individual. The psychedelic experience depends heavily on the user's personality, mood, physical condition, and mental balance. It's commonly believed that a bad trip can only occur when you're in poor physical condition, for example, if you're deficient in vitamin C or not hydrated enough. Unfortunately, a bad trip depends on more than just these factors. Even if you're well-stocked with vitamins and water, there's no guarantee, as other biochemical and psychological mechanisms may come into play. For a positive trip, the right environment is essential. Psychedelics expand your consciousness, delve into your subconscious, and something unexpected may emerge. An uncomfortable environment—for example, too much light, a stuffy room, or unpleasant people—can easily trigger problems. Only comfort and pleasant people are essential during a trip!

When too much hits, it can knock a person off-kilter, especially if they weren't expecting it (there's always a friend who'll egg you on and offer more). This can happen with potent drugs or from consuming too much. This is quite common among newcomers for several reasons. First, when you're new to the world of cannabis, you likely have a rather vague understanding of the crop, how much you should consume, what exactly you're consuming, and what effects to expect. Sometimes it's impossible to prevent a bad trip from cannabis, as it can come on suddenly; other times, there are some things you can try to avoid it. The best advice we can give you to prevent a bad trip is to educate yourself first. This will not only let you know what effects to expect, but will likely also provide some peace of mind. When we're faced with the unknown, it tends to be a bit nerve-wracking ¹⁶.

However, marijuana is a mild and pleasant psychedelic, particularly suitable for sex because it significantly increases lust. This illustration is an artistic representation and an abstraction.

How do you cope with a bad trip if you've already had one? Marijuana is a safe substance that has never killed anyone. At best, you might pass out or vomit, but this could simply indicate you were in a slightly off mood that day or that you've consumed too much. Try to stay calm and remember that this will make a funny story, if not tomorrow, then in the near future. If you're helping a friend, you should be helpful, but don't overwhelm them with attention, otherwise you might frighten them even more. First, drink some water; it's simple, but a glass of water can easily bring you back to your senses. Take a steady breath and try to clear your mind of any panicked thoughts that may arise in you or your friend. Avoid consuming any highly caffeinated beverages, as this can cause anxiety, which is exactly what we're trying to reduce ¹⁷.

LSD (LSD-25, LSD, from German Lysergsäurediethylamid — d-lysergic acid diethylamide; colloquial "acid", "lyser", "Lucy") is a psychedelic drug of the lysergamide class. Chemical names: N,N-lysergic acid diethylamide; N,N-diethyllysergoylamide. Conventional names and codes: LSD; LSD-25; Lysergide, Delysid. Chemical formula of the substance: $C_{20}H_{25}N_3O$. In Russian-language medical literature of the Soviet period, the abbreviations DLK and DLK-25 are used to denote LSD. LSD has long been considered the most well-known psychedelic, used or still used recreationally, as well as a tool in various transcendental practices such as meditation, psychonautics, and the illegal (by the laws of the SOCG, rashists and other fascists) (but formerly legal) psychedelic psychotherapy. However, LSD has recently been supplanted as the most well-known psychedelic by another psychoactive substance: psilocybin¹⁸.

This image depicts a psychedelic Satan and Satanists, represented by a parent and children. The souls of Satanists are connected to Satan and to the EIQF. Satanists are part of the Greater Soul of Satan, unlike creatures, which are simply biological organisms with the basic functions of human spiritualization. Incidentally, this is very similar to the domestication of animals and the transfer of a reflection of one's spirituality to pets. Wild animals lack empathy, the rules of behavior within a human pack, and live by instinct. This is precisely how non-spiritual creatures live. The "owner" of a pet transfers a reflection of their spirituality to their adorable pets (dogs, cats, parrots, etc.), and this spiritualization is superimposed on the animals' consciousness. This is absolutely not mysticism or esotericism. Some might call this training, but this effect is achieved through interaction with animals and without targeted training methods, but as a projection of a person's own mentality. The spirit of Satan is reflected in the consciousness of all Satanists.

Image 3560. A Satanist psychonaut in the form of a quantum observer, imprisoned in a physical body.

In quantum mechanics, an observer is not a passive witness to physical processes. The state of a system is described by a wave function, which contains probabilistic information about possible measurement outcomes. Observation leads to the collapse of the wave function, which effectively signifies a transition from a superposition of states to a specific outcome. This process emphasizes the informational nature of quantum measurement: knowledge about the system is updated at the moment of interaction with the observer. A key point: quantum mechanics views measurement as a process by which information about the system becomes available, not as a simple observation of an "existing fact." In quantum mechanics, the observer is an active participant in the process of acquiring information, not a passive recorder of a state. The collapse of the wave function is a fundamental information process that accompanies the updating of knowledge about the system¹⁹.

The open eye symbolizes hidden truth, calls for wisdom, and appeals to conscience. It symbolizes the root cause of all existence, embodying perfect goodness and victory over evil ²⁰. In gay Satanism, the symbol of the eye represents the quantum observer and the quantum observation of the universe by conscious people. The eye signifies awareness and the ability to see the connections between different things, events, and situations. For Satanists, the eye symbolizes the ability to see the evil of our world and destroy it through the effect of quantum observation and the black magic of Satanism. Satanic black magic is not something fairy-tale or mythical—it is the alteration of our reality through observation of the world and through a quantum connection with the forces of Hell. Satanists observe evil in the naked world, and the EIQF and Satan watch and listen to the Satanists. Black magic works very slowly, but inexorably, destroying evil.

Image 3571. Psychedelic image of Ganesha as an alternative depiction of Satan in Indian traditions.

The name "Ganesha" comes from Sanskrit—"Gana" means group or people, and "Isha" means Lord. Thus, Ganesha means "Lord of the People" or "leader of the multitude." He is the one you invoke to remove blockages and bring clarity before any new beginning. You'll also hear names like Ganapati, Vinayaka, and Ekadanta. Ganapati means the same thing—leader of divine beings. Vinayaka refers to his power to clear obstacles. Ekadanta, meaning "one tusk," symbolizes strength, focus, and sacrifice. Each name reveals a deeper layer of who Ganesha is—not simply a problem-solver, but divine guidance on your spiritual journey. As the patron of the arts, sciences, intellect, and wisdom, Ganesha plays a crucial role in stimulating creativity and scientific pursuits ²¹. Satan means the same thing.

Marijuana and red fly agaric don't produce such effects. Even if you deliberately "get high" on marijuana or red fly agaric, you won't experience these effects—you'll simply go to sleep and have peaceful psychedelic dreams. For non-Satanists, "time loops" are possible, signifying a connection with the forces of Hell and the infinite entropy of evil. Bad trips have positive effects, but are unpleasant psychedelic journeys.

Image 3573. The Satanist's connection to the EIQF and Satan. For the average person, psychedelics open a basic connection to the EIQF, and as spiritual maturity and awareness increases, a rudimentary Satanism will begin to develop. However, Satanism is always an innate, but undiscovered, phenomenon. In this case, psychedelics will reveal the hidden Satanism within a person—or, more accurately, so to speak, Psychedelics don't create Satanism, they reveal it.

Image 3574. Psychedelic face in psychedelic tones and colors.

Image 3575. Psychedelic flight fueled by entheogens. Abstract.

Entheogens are a class of psychedelics that can induce a sense of contact with the transcendental or even communion with the divine. The German pharmacist Louis Lewin was the first to notice the "spiritual" properties of psychedelics. He was researching mescaline, a hallucinogen found in several species of Central American cacti. In 1924, in his work "Fantastica" (his term for psychedelics), he described a mescaline trip among a Native American and drew attention to the substance's entheogenic effect. In 1962, psychologist and leading advocate of consciousness expansion Timothy Leary replicated Lewin's experiment with his students, but fed them psilocybin-containing mushrooms instead of mescaline. The effect was similar—the subjects experienced a sense of union with the divine.

Image 3576. A portrait of a psychonaut under the extreme influence of psychedelics: all "chakras" have opened, and a connection with the HIPC or Satan has been achieved. Psychedelics bind consciousness and dissolve the human ego within themselves. The ego and self-awareness will never completely dissolve. The complete dissolution of the ego and awareness will signify synergy with Satan for Satanists, and the end of entropy for creatures.

Following the discovery of psychedelic cults in South America, Western scientists noted that hallucinogens were used in rituals by people in many other parts of the world. American ethnomycologist (a researcher into the relationship between humanity and mushrooms) Robert Gordon Wasson (1898–1986) devoted his life to studying the cultural influence of hallucinogenic mushrooms on religious practices around the world. Wasson was particularly interested in fly agarics, which contain muscimol—another psychedelic and entheogen.

Image 3577. The little Satanist bitch uses psychedelics through a smoking pipe. As Slut Sodomia already said, it's better not to smoke anything, but to consume psychedelics orally. Smoking marijuana is best replaced with activated tinctures. This is described in detail in the grimoire Gay Lust.

In 1986, Wasson, along with LSD inventor Albert Hoffman and historian Carl Ruck, published the book "The Persephone Question," in which he definitively formulated the entheogen theory. Researchers have discovered traces of ancient cults based on the use of hallucinogens in the cultures of almost all Indo-European peoples. They concluded that religion arose precisely thanks to entheogens, which gave the human imagination the very concept of the divine and transcendent. Modern scholars are often critical of the work of Wasson and Hoffman. However, among proponents of the entheogen theory, there was sometimes room for much stranger and more radical views²².

Image 3583. Marijuana psychedelic abstract poster.

The relationship between humans and cannabis goes back centuries—at least five to six thousand years. This plant has accompanied us everywhere: it has treated illnesses and relieved pain, served as food and seasoning, provided fiber for ropes and sails, oil for lamps and leather, and played an important role in sacred rites and everyday rituals. From ancient Chinese herbalists and Indian Vedic hymns to Scythian burial mounds and Mediterranean ports, cannabis has left its mark on medicine, crafts, trade, and culture, sometimes becoming an object of worship, sometimes an object of taboo. Cannabis can induce "peak experiences"—as psychologist Abraham Maslow called fleeting moments of expanded perception that signal self-transcendence—when used in conjunction with more traditional magical practices such as meditation, fasting, contemplative prayer, and sacramental rituals. For this reason, shamans and Satanists around the world have used cannabis as a targeted psychoactive substance to induce peak experiences that evoke feelings of ecstasy, wonder, and awe, resolving "the dichotomies, polarities, and conflicts of life." Cannabis has been used for thousands of years in various cultures and traditions as a mild entheogen.

It's better to understand the effects of each entheogen separately before attempting a psychedelic mix. Some psychedelics and stimulants should absolutely not be mixed. The table at the beginning of this SatanArt almanac #36 shows which substances should not be mixed. Stimulants and analgesics are not considered psychedelics in principle.

This image depicts an excessively deep immersion in the trip, when the ego and self-identity (self-awareness) dissolve into the HICP. Physically, such a trip can be completely safe for the body's health, as psychedelics are non-toxic. However, the mental effects of such a trip will linger and most likely be positive, despite the feeling of horror from dissolving into the EIQF.

Image 3596. A mushroom psychedelic trip, in the style of "very interesting, but I don't understand anything." Please note that red or panther mushrooms don't produce such visual effects in the eyes themselves. Psychedelia occurs only in the brain. Psilocybin magic mushrooms produce pronounced visual effects of quantum field alteration (popularly known as "hallucinations").

Image 3597. The Stairway to the Psychedelic Realm of Gay Satanism. Some branches of Satanism either don't use psychedelics or don't publicly declare it. Satanic witches use psychedelics for consciousness expansion, better sex, or for the euphoria of Hell (the so-called "achievement" in our world).

INFORMATION ABOUT THE SATANART GAY SATANISM VISUAL ART ALBUMS-MAGAZINES AND GAY SATANISM

Announcing a change in gay Satanism terminology. Starting with this issue of SATANART #31, I request that the term External Information Field (EIF) be considered obsolete. In its place, the Antichrist introduces an improved version: External Information Quantum Field (EIQF). I am making this change to clarify the quantum nature of EIQF; otherwise, one might think EIQF is ordinary information, like data on the Internet. The External Information Quantum Field is not equivalent in significance to the Internet Information Field in our world. These are different informational concepts.

KEY THESES FOR UNDERSTANDING SATANIC IMAGES IN ART

Gay Satanism is not a religion or a sect. Gay Satanism is the spiritualization of man by Satan. This term has another meaning. Gay Satanism is a creative direction of the artistic genre created and developed by the Antichrist Slut Sodomia. I do not want gay Satanism to become a religion, but I want it to become a fan movement for the liberation of one's own consciousness from the shackles of the evil of our world. Under the auspices of Satan, with the Antichrist Slut Sodomia incarnate. Gay Satanism is for all people spiritualized by Satan. Not only for gays and people of homosexual orientation. All people spiritualized by Satan are disciples of our Teacher Satan. We are all Satanists. The difference between Satanism and religion and evil is that it is an individual spiritualization. Mass demonstrations under the guise of Satanism are impossible, because Satanists are introverts. Fake Satanists of the future will gather herd gatherings of pseudo-Satanists (football fans, music fans, fans of the SOCG²³ or religion). A meeting of real Satanists is a sexual orgy or a sabbath of unity with nature in the nude. Other types of mass demonstrations of belonging to Satanism are fiction and a parody of Satanism.

Satan is good. Satan is the Tamer of evil. Satan is revenge for evil in our world. Satan is Joy, Pleasure and Happiness. For the evil forces of our world, Satan is the main enemy. Satan is an image in the consciousness of man and a mystical experience of connection with the spirits of another dimension, which is called Hell.

²³ SOCG is an acronym that stands for the true meaning of state. State Organized Crime Group. The term was coined by Antichrist Slut Sodomia for the Gay-Satanism grimoire "Gay Lust".

For Satanists, Hell is their home. Connection with the spirit of Satan occurs at the quantum level. Modern science already studies and uses the quantum level for applied tasks. Satan is the main spirit of Hell, the Lord of critters, the Teacher of Satanists. Satan is not a god. Satan is the Spiritualizer, the source of black magic, the Alpha and Omega. Satan is the Adversary of evil and the Accuser of evil. Satan is the Father of all Satanists. Lilith is the Mother of all Satanists. Satan and Lilith are the sources of Satanic lust for all their Satanist children. Satan is the internal spiritualization of a Satanist, and not dogmas, sermons of priests or religious books. At the same time, Satanism does not deny the importance of biological parents.

Darkness, the abyss - this is the world of soulless critters, their states, their stupidity. This is the occupation of planet Earth by usurpers of power in the form of the SOCG. This is the image of the evil of our world. In some cases, they mean the opposite, because it is the evil of darkness that gives birth to Hell, vengeance and Satanists. "Children of darkness" in this case mean Satanists. Also, the image of darkness can mean Hell for the forces of evil.

Light is Satan-Lucifer. Light is Satanism and Satanic spiritualization, bringing man closer to nature. This is liberation from the shackles of evil and this is the image of freedom. This is the image of the Tamer of evil in our world and in Hell.

Sadness, sorrow, regret - this is an indication of the understanding that evil has embraced the whole world and the Satanist has to live in our world, under the yoke of evil. The main sources of evil are: crowds of inanimate critters, SOCG. This definition of the term is specifically for Satanism and for Satanists. Also, these images can mean ordinary human emotions in relation to people.

Vengeance - this image is important for all Satanists. Revenge on evil in our world and in Hell. Inanimate critters, activists of the SOCG, deceivers of religions and other evil will certainly be subjected to revenge and information entropy.

Return of the land and return of freedom to people - this image is important for all Satanists. It means the overthrow of all SOCG and religions, cleansing the earth from inanimate critters, from their stupid and senseless evil. This is the image of cleansing the planet Earth from states and their totalitarianism.

Night is the image of the fact that a Satanist in the world of evil in our world, goes practically by touch. The light for him in the night is his Satanic spiritualization. Darkness thickens at night and light is needed most of all at night. The term night is similar to the term darkness, but does not mean evil itself, but uncertainty and difficulty in orienting oneself, acting, living without light. Lost, abandoned and forsaken - this image in Satanism means that Satanists are no longer in Hell and that Satan and the forces of Hell are not directly accessible to them. Only through Satanic spiritualization. It also means that in our world Satanists do not have their own magic for the instant destruction of evil, as in Hell, in Satan's dimension.

Religion is a dogma of worship of lies and evil. Religion is a substitution of true spiritualization by Satan for critters. All evil critters are deprived of spiritualization by Satan, therefore they replace Satanic spiritualization with God and religion. Religion is a sect, a community for critters for whom herd mentality is important.

God is the canon of evil, an example of a despotic, theocratic idol of evil. God does only evil and God is evil, even because he deprives man of true spiritualization by Satan, i.e. the true Holy Spirit. There have been many gods in the history of the human species. All gods of religion are united by malice, connection with the state and with the leaders of the SOCG.

Antichrist is a common noun, not a proper name. It is written with a capital letter, like the word Satan. The concept of Antichrist means the development of a high degree of Satanism in the consciousness of a person. The term Antichrist also means a Satanist who is close to Satan and the forces of Hell and has a high power of black magic. A synonym for the word Antichrist is the expression Great Magician of Satan.

Satanism is the spiritualization of people by Satan or other demons of Hell. Satanism can also be considered as a philosophical concept that opposes theocratic dogma and the state machine of lies, violence, prohibitions, imputed duties to evil, herd behavior. The main difference between Satanism and religion or other philosophical concepts is that the spiritualization of a person by Satan and the forces of Hell occurs from another dimension at the quantum level. Therefore, Satanism is an internal part of human consciousness, and not imposed dogmas of our world through the media, culture, propaganda, morality, prohibitions or education. Satan's enlightenment comes to a person at birth or develops consciously, in later life. Satanism opposes the evil of our world and the lies of our world.

Satanic lust is a developed and perverted sexual attraction, a constant desire to have sex, a desire to corrupt oneself and others to free oneself from the prohibitions of evil. Satanic lust is not just a sexual feeling, but a special Satanic practice for knowing oneself, getting closer to Satan, and liberating oneself on an animal level. The peculiarity of Satanic lust (especially gay lust) is that Satanic sex is not aimed at procreation or at making new human offspring. Satanic lust is always aimed at receiving pleasure or for tantric meditation. Of course, Satanists can make children if necessary.

A Satanist is a person who has Satanic inspiration. Many clues about the lies of evil are given to the Satanist not only by the inner critical thinking, but also by the mental connection with Satan and the forces of hell. Satanic spirituality often gives the Satanist a feeling of introversion and individualism. Satanists and gays are always proud of their personal spirituality or the achievements of their spouse. Satanists and gays are proud of their Satanic spirituality and perverted lust. Satanists are proud of Satan.

An unilluminated (unenlightened) critter is a person deprived of spirituality. This is a zombie and a cog in the evil system. Inanimate critters are accomplices and assistants of evil. Unilluminated critters prevent Satanists and the entire human race from living happily, receiving spirituality from Satan. Inanimate critters love herd mentality and submission. They cannot live without territorial oppressors, enslavers and false information of evil. Such people make up more than 90% of the population of planet Earth. These people have instincts of survival and adaptation. These people have no connection with Satan or with the External Information Field of the level of awareness. Critters can be called a biological shell or imitation of real people. Critters always choose evil, herd mentality, conformism and speak in templates from media propaganda or voice the dogmas of religion.

The state is an evil system that has divided the entire world into territorial zones of influence and terrorizes people with its prohibitions, oppresses with prisons and physical violence, creates conflicts between criminal gangs and plunges people into wars between criminal gangs. The state is the main source of evil. The state is a materialistic sect with its dogmas, rules of conduct and a system of oppression of the individual. The state = international military criminal groups = occupiers of the lands of the Satanists = criminal gangs = SOCG.

Fascism is a form of social organization expressed by discrimination by the state against its own citizens, that is, under fascism the supremacy of the state over the individual is recognized. Fascism is a state. A strong state = a fascist totalitarian regime. The word comes from the Italian fascismo, fascio - union, bundle, bunch, unification; fascio di combattimento - union of struggle. Fascism is also an ideology and a socio-political movement within the framework of authoritarian or totalitarian militaristic ultra-nationalism and a corresponding dictatorial regime with strict regulation of society and economy. All states strive to regulate everything and on any issue. To do this, they constantly spew out different laws from their cesspools. All states are fascist territorial sects with their own ideology, rules and methods of oppressing the individual. Fascism is a system of evil, in which a small group of people believes that they can dispose of other people, command people, deceive people through the lies of propaganda and the laws of submission to evil established by fascism. All SOCGs are fascist and their goal is material enrichment, social intraspecific elevation above other individuals of the human species and the possibility of oppressing people by

psychopaths. All fascisms are built on the principle of SOCG. Real spiritual Satanists hate fascists, do not celebrate their fictitious holidays and try not to submit to this evil.

Fascists, officials, bureaucrats are the evil of the human species, in suits or other costumed special clothing, who work for fascism or profess the principles of fascism. These critters will receive such a reprisal in Hell that they will be ready to give all the money of our world to avoid entropy and retribution of the forces of Hell. But, it will be too late. Fascists, officials, bureaucrats of the SOCG, who are not economic-social-municipal employees of society, are criminals. Only a small part of the fascists are involved in improving the economic-social-municipal economy of people, and the majority of fascists are useless and harmful criminals.

The laws of the SOCG and other territorial fascist groups (local governments, prefectures, regions of the empire) are mandatory rules established by evil for people, with the aim of realizing the goals of fascism. All SOCG and fascist communities have their own laws to regulate behavior in the territories occupied by fascism. Satanists understand that the laws of evil are created for inanimate critters, with the aim of their subjugation, stupefaction and material use.

The positive activity of organized territorial entities is the organized management of communal services that is useful for the society of people, the development of the infrastructure of the society of people, maintaining the cleanliness of the territory and other social actions that are useful for the life of people, on the part of economic and communal local governments, prefectures, regional centers of territorial management. This is not a state, not an empire and not fascism. The Antichrist Slut Sodomia supports such activities and does not consider economic management to be fascism or evil. Currently, most territorial administrations support the fascism of the SOCG and are part of it. In a (future) society without the SOCG, the activities of organized territorial entities should be only economic and auxiliary, without politics, propaganda, religion and criminal concentration of power.

A patriot is an active fascist or active Nazi of his SOCG. A patriot is a person stupefied by propaganda who believes that his SOCG is better than another SOCG and he, as a member of this SOCG or a nationality within the SOCG, must do something for his SOCG in a selfless desire. A patriot is a slave of the SOCG. It is important for a patriot to be well proud of the greatness of his SOCG or the greatness of his Nazism. The pride of a patriot is always groundless, stupid and not aimed at pride in himself or his spouse. The pride of a patriot is always impersonal and is pride in the evil of the state regime that has seized the territory of the critter's habitation.

Patriotism is a person's smearing in the evil of pride in the fascism of a group of politicians or the Nazism of a certain SOCG or union of SOCG. Patriotism is a method of stupefying people, in which one SOCG exalts its importance in the eyes of people over another SOCG. Patriotism is belonging to a certain and evil group of lovers of local fascism, i.e. occupiers of the territory. Sometimes, the delirium of patriotism occurs at a distance (beyond the borders of one's SOCG) - then the patriot raves about the greatness of his SOCG, while being on the territory of another SOCG.

Propaganda is a constant, massive and avalanche-like lie of the SOCG about its greatness and its particularly outstanding character. The goal of propaganda is to make a person stop thinking critically and make him believe that he has a duty to the SOCG. For example, a duty to die in a war for the ideas of the SOCG, which are invented by the top of the ruling regime of this SOCG. Or a duty to obey the SOCG gang or a religious clan. Propaganda can be state and religious. In the world of the developed civilization of the white race, since the 19th century, the propaganda of the SOCG prevails over religious propaganda. Among the savages and religious fanatics of the damned peoples, religious propaganda still leads.

External Information Field (EIF) External Information Quantum Field (EIQF) is a general term for processes and structures in our world and other dimensions that are invisible to the human senses but exist at the level of information (quantum or even more complex types of interactions). The EIQF, Hell, Satan, human

consciousness, the Internet—everything that exists consists of some kind of information, and they are interconnected informationally and mentally. Modern human science as of 2025 lacks the ability to describe and study the EIQF, but this does not mean it does not exist. Quantum science and quantum computers already exist, but this is only the beginning of an understanding of the EIQF. The EIQF is not the same as the gods of religions, the Internet database, electronic information on planet Earth, or a paradigm. Beneficial entheogens help one see, hear, and connect to the External Information Quantum Field. They allow one to overcome the barrier of perception beyond the normal human senses. Some people can sense the External Information Quantum Field even without the aid of entheogens. The External Information Quantum Field most closely resembles a global multiverse, represented as a gigantic set of information and the algorithms for its interaction.

All that exists consists of information, our world consists of information. The interaction between multi-universes occurs at the quantum-information level, faster than the speed of light. The speed of light is extremely small, compared to the level of quantum interaction between parallel dimensions.

Black holes are passages between universes. No gross matter can overcome a black hole. Only quantum information can pass through them. Through black holes, our world is connected with the world of Satan, i.e. with Hell. A black hole is a quantum tunnel for spiritualization by Satan.

The damned are people or entire nations who rejected Satan or committed atrocities for which the black magic of Satanism was imposed on them. Damnation manifests itself as degradation, decline, physical or mental torment, mental pathological state of doom, constant lies, stupidity, lack of talent, dirt, complicity with evil, religiosity. Evil is a marker of damned critters, it is the absence or rejection of satanic spiritualization, these are the deeds of critters to degrade their spiritualization. Evil is always filled with stupidity and lack of talent from spiritualization by the External Information Field. Evil critters are inanimate (unenlightened) biological shells, which are characterized by religiosity and a craving for herd behavior, under the leadership of the SOCG. The state, religion and dark herds of evil, selfish, inanimate critters are the main forces of evil in our world. The God of religions is EVIL. His main difference from Satan is his dogmatism, not his natural spiritualization of man. God forbids, Satan permits.

A faggot, a pederast, a slut, a bitch, a passive bottom are slang names for passive gays in a perverted form. I use all of these forms and they are all grammatically correct because this is the language of gay lust. The faggots themselves love such words. They love to distort these words; they love when these words are pronounced with humiliation. Analogues of these words in English: faggot, fag, looser, slut, bottom slut. A gay slut is a passive faggot who is not necessarily an MTF trans, but usually has a desire to become one. The term slut can be used to refer to any passive gays. The traditional desires of sluts & bitches are the desire to be fucked in the ass. Bitches want to fill their anal cunt with sperm and absorb sperm into themselves.

Anal cunt, cloaca, gay cunt – all these words are synonyms and mean asshole, intestine and faggot lust during anal sex. Such sexual words are used for faggot copulations, to add piquancy, perversion and depravity to them. A faggot's cloaca is an organ with two functions: to remove feces and to receive sexual pleasure. I like these sexual terms.

LGBT or LGBTQ or LGBTQ+ or LGBTQIA+ is an abbreviation for the words “lesbian”, “gay”, “bisexual”, “transgender”, “queer”, “intersex”, “asexual”, “Asexual/Aromantic/Agender”, plus additional categories of unusual people, their unusual ideas and extravagant communities. The Grimoire of Gay Satanism uses the designation LGBTQ+ — a community of sexual minorities and perverts united by common interests, problems and goals. It consists of various communication groups, communities, subcultural movements, queer neighborhoods and queer organizations. All designations are equivalent. In the grimoire, I use the designation of the LGBT community with an additional letter Q and a plus sign. The letter Q stands for queers, and the plus in the name means that I also include feminists and all other people with non-standard views in the

community: zoophiles, pedophiles, watermelon lovers 😊 and other perverts. I believe that feminists are close in spirit to LGBTQ+ and are part of it.

Queer is a collective term used to refer to a person whose sexuality and / or gender identity differs from the majority.

MTF transwomen and dickgirls are fully transitioned gay faggots who identify themselves as female with a male penis (in original form). Large female boobs are an optional attribute for MTF transsexuals. The abbreviation MTF stands for Male-To-Female transgender transition vector. Trans transition is very important for Satanism. Almost all MTF transsexuals are inspired by Satan and are Satanists. There are several levels of trans transition, which Slut Sodomia highlighted in her grimoire of gay Satanism, Gay Lust. For more information on penisgirls, read Slut Sodomia's Grimoire of the Antichrist.

CIS, Cisgender - these terms (cisgender is often shortened to CIS; sometimes cissexual) describe a person whose gender identity corresponds to the sex assigned at birth, i.e. a person who is not transgender. The prefix cis- is of Latin origin and means "on this side". The term "cisgender" was coined in 1994 as an antonym to the word "transgender" or "non-binary person" and entered dictionaries in 2015 as a result of changes in public discourse about gender. The term is an analogue of old-fashioned expressions from past centuries regarding sexual orientation and gender of people: (normal ordinary woman) = CIS woman and (normal ordinary man) = CIS man. At the moment, any gender and sexual orientation of people is recognized as "normal". Among the advanced peoples of white civilization, our world, sexually retarded savage people, homophobes and transphobes are recognized as abnormal. A synonym for this term can be the phrase NON-TRANS, and an antonym NON-BINARY or TRANS.

Entheogens are substances of plant, fungal, chemically synthesized, or animal origin that allow a connection with the "entheos," that is, with the inner divinity, with the "divine principle" (entheo + genesis). This is the same Greek root of the word theology, Zeus (teus, deus), enthusiasm (in theos, "one who lives in the divine"). Entheogens or psychedelic drugs such as lysergic acid diethylamide (LSD), DMT, marijuana, fly agaric, and psilocybin are associated with mystical experiences. At present, fascist drug laws limit their research. But major biomedical research centers have already found that entheogens predictably cause mystical experiences and, thus, allow us to study the state of the brain during these experiences. entheogens are not drugs because they not only do not escape from reality, but also bring you closer to it, and do not cause any physical tolerance, withdrawal or dependence; therefore, most of them are not illegal (ayahuasca, bufo alvarius, yopo, san pedro) and are used to deepen and deactivate from the very beginning the mechanisms and programs that interfere with our freedom and inner peace, leading us to self-knowledge and rediscovery of our true I-ego through connection with the External Information Field or with the Spirits-Demons of Hell.

ZooSex and ZooPhilia are the normal human desire to have sex like animals, imitating animals or with real animals (usually a large dog or horse). Man is an animal and there is nothing surprising in the desire to deepen his animal nature through transformation into an animal or through sexual intercourse with an animal. It is interesting that only a small number of people are involved with real animals, because it is difficult to organize. A significantly larger number of lovers of sex with animals prefer to fuck like animals or dress up and impersonate an animal. There is nothing wrong with this. Satan and Satanism approve of this, and the forces of evil prohibit or condemn it. Synonyms for the concepts of zoosex and zoophilia are such terms as bestiality and therianthropy. A light version of zoo-Satanism for children and adolescents is playing quadro-players, quadrobers, furies, puppies without a pronounced sexual component. Zoophilia is equally loved by heterosexuals and homosexuals. Among gays and Satanists, there are not many lovers of animal sex, presumably up to 10% of the total gay population of planet Earth (a very rough estimate, for understanding. On farms this percentage is higher: 30%, in cities less). Most gays and Satanists prefer sex with people, without

transforming into an animal. Zoophilia is not suitable for all people, but it is a good kind of Satanism. Zoophiles are part of the LGBTQ+ community.

Homophobia is a kind of sexual stupidity of critters, when they are surprised by the sexual freedom of LGBTQ+ people and are indignant about this freedom. Homophobia is a manifestation of hostile xenophobia to what critters are not able to understand, but under the influence of propaganda and religion are afraid of this, because this is an unusual phenomenon for them. Homophobes are also opponents of zoosex and zoophilia. Homophobia manifests itself not only in the field of sex, but also in the freedom of thought of evil critters. As false reasons for banning LGBTQ+ communities, homophobic critters traditionally cite protection of children, an imaginary opportunity to become gay or lesbian when visually interacting with LGBTQ+, or trampling traditional values of heterosexuals - only in the pussy and never in the ass. In fact, the reason for the fear of evil critters before the LGBTQ+ community is much deeper, and concerns the fact that among sexually free people there are many Satanists. Satan and Satanists destroy the evil of critters in our world and after the physical death of homophobes, they will be driven to entropy in Hell by all the forces of Hell. On a subconscious level, evil knows this, therefore the LGBTQ+ community carries the light of Satan in itself and is a danger to evil.

For a more accurate transfer of meaning and for precise identification of terms, Slut Sodomia suggests calling gay faggots in English SLUT, and CIS girls with a female pussy to be called BITCH. That is exactly how I called these two different categories of Satanists in my grimoires and albums of gay Satanism. Now, I am fixing this name in the dictionary of terms of gay Satanism. In the plural, all passive gays and MTF/FTM trans are called SLUTS, and "classic" girls (heterosexuals, lesbians) are called BITCHES. This is not a dogma, but simply a proposal for the LGBTQ+ community and clarification of my own terminology. It is possible to call it the other way around: a faggot called a BITCH means that he has finally started thinking only about being raped in the ass, like a CIS Satanist woman. If a CIS woman calls herself a SLUT, it means that she is close in spirit to the faggots and cock-girls from the gay Satanist community.

ABOUT THE ANTHROPOMORPHIC AND ALLEGORICAL IMAGE OF SATAN IN THE ART OF SATANISM

Anthropomorphism and allegory in art have a rich and ancient tradition. Depictions of Satan are always anthropomorphic and allegorical because Satan can take any form. No one knows what Satan looks like in his canonical form and such a form does not exist. For a Satanist there may be a personal favorite form of Satan, and this is the form the Devil takes for the Satanist. I have already written about this in detail in the grimoire “Gay Lust”.

Allegory (from ancient Greek ἀλληγορία - allegory) is an artistic representation of ideas (concepts) through a specific artistic image or dialogue. Allegory is an artistic representation of abstract concepts and generalizations using specific figurative embodiments. The artist depicts and represents faith, love, soul, justice, discord, glory, war, peace, spring, summer, autumn, winter, death and similar concepts with living beings and specific images²⁴. Anthropomorphism is a worldview concept expressed by nominative means of language, fine arts, etc. According to this principle, inanimate objects, living beings and fictional entities that do not have human nature can be endowed with human qualities, physical and emotional²⁵.

Therefore, all artistic depictions of Satan are allegorical representations of our Teacher. More important than the

painted image itself is the person's perception of the painting. It could be surprise, lust, delight and other feelings. It is precisely these feelings that are born from viewing the paintings in the SatanArt album that are important. It is these feelings that give spirituality to Satan or immerse the beholder in Satanism. Also, the paintings in the album convey the general aesthetics of Satanism - this is a special sensual satanic beauty. Therefore, in addition to immersion in satanic spirituality, albums of paintings instill in a person an aesthetic sense of beauty.

IMAGE SOURCES AND IMAGE COPYRIGHTS

Slut Sodomia took all the images for her album from open sources on the Internet. Many paintings are modified with available neural networks for image processing. If I know the name of the author of the picture, I indicate it. If I don't know the author's name, I don't indicate it. This document contains illustrations by various authors, and I include the artists' drawings in my album for scientific, educational or cultural purposes. This document is a free information source about Satanism. The authors of the works receive advertising of their name and their work from the Antichrist Slut Sodomia, so I am not interested in any claims based on the laws of the SOCG and other evil. Artists of Satanism receive free advertising and promotion from the Antichrist. However, I think that none of the real Satanists will make claims against me. Selfish evil, the Pharisees and lawyers of the SOCG may do this, but I am not interested in the opinion of evil. All evil will be subjected to entropy by Satan, like all the rest of the information garbage of our world.

ABOUT IMAGE FORMATS FOR SATANART ALBUM – PNG, WEBP, JPG

I published all the images for the grimoire of gay Satanism in PNG or JPG/JPEG format. For SatanArt albums of satanic art, I will additionally use the good and relatively new WebP format. WebP - (English WEB Pictures) image compression format, both lossy and lossless, proposed by Google Inc. in 2010 year. Based on the still image (key frame) compression algorithm from the VP8 video codec. Uses RIF container²⁶. This format provides good image compression with decent quality. If you can't open WebP images, either update your software or install codecs that will allow you to see these images on your computer.

Most of all, I like the PNG format, which produces fairly high-quality images, which is especially important when printing books in a printing house or on a printer. PNG (portable network graphics) is a raster format for storing graphic information that uses lossless compression using the Deflate algorithm. The PNG format is designed to replace the older and simpler GIF format, and to some extent to replace the much more complex TIFF format²⁷.

I also use the classic JPG/JPEG photo format, although, in my opinion, this format is inferior to PNG and WebP formats. Thus, for the collection albums of Satanic drawings, photographs and other graphics of gay Satanism for immersion in the spirituality of Satan SatanArt, I will use three image formats PNG, WebP and JPG/JPEG. I will not use other image formats in 2025, although new and better formats for digital graphics may appear in the future and then it is worth using new products if necessary.

DISTRIBUTION OF THE ART APPLICATION OF GAY SATANISM SATANART IN DIFFERENT DIGITAL FORMATS

Albums-collections of satanic drawings of gay Satanism SatanArt in electronic form are released by the author in two formats PDF and DOCX²⁸. The e-book is free to download in any of these formats. Also, the graphical application of gay Satanism SatanArt is distributed in the form of a single ZIP archive file, which contains versions of the book in both PDF and DOCX formats. These are formats for publishing the images themselves with text titles and comments on satanic graphics from Slut Sodomia. Applications of Gay Satanism SatanArt is a useful addition to the Gay Lust grimoire for spiritualizing a person through the visual images of Satanism.

I have collected the satanic art pictures in a separate appendix so as not to take up a lot of graphics space in the Gay Lust Grimoire itself. You can download collections of Satanic drawings, photographs and other graphics of gay Satanism for immersion in the spirituality of Satan SatanArt on the Internet, on the Darknet on sites in the onion domain zone through the TOR browser or through torrents. ²⁸ According to their purpose, electronic document formats can be divided into those that can be viewed and edited, as well as those that can only be viewed or only edited. For example, the PDF format is intended for viewing documents, and DOCX is intended for both viewing and editing.

and text comments will initially be available in Russian and English. The texts of the comments in English are published in the English version of the SatanArt add-on - this is a separate file.

Thus, the visual application of gay Satanism SatanArt by Slut Sodomia "Collections of Satanic drawings, photographs and other graphics of gay Satanism for immersion in the spiritualization of Satan SatanArt" is available in the following options:

- In Russian – with titles and comments of satanic paintings in Russian in DOCX, PDF formats and their packaged version in ZIP format.
- In English – with titles and comments of satanic paintings in English in DOCX, PDF formats and their packaged version in ZIP format.
- The full version of the visual application of gay Satanism SatanArt with separately located pictures in PNG, WebP and JPG/JPEG formats, packed in a fairly large ZIP archive. DOCX, PDF + separate picture files in PNG, WebP and JPG/JPEG formats.

Portable Document Format (PDF) is a cross-platform open electronic document format originally developed by Adobe Systems using a number of PostScript language features. Primarily intended for presenting printed products in electronic form. There are many programs for viewing, as well as the official free Adobe Reader program. The book format as a PDF file is convenient to read and distribute electronically. Typically, no distortion is observed when opening this format on different operating systems and in different programs.

The DOCX format is a modernized version of the DOC format, and compared to its predecessor, this format is much more popular and accessible. A DOCX file is a document created using Microsoft Word 2007 or a newer version of Office from Microsoft. The file format is based on Open XML and uses ZIP compression to reduce file size. I recommend opening the DOCX file for work and editing in the original MS Word editor of this format from Microsoft, which is included in Microsoft Office 2019 and later. For reading and review, you can also use free programs that can open the DOCX format - LibreOffice Writer, OpenOffice Writer. Free programs may contain distortions in the document, offsets, errors in formatting and fonts. The author puts the book in DOCX format into the public domain for the purpose of publishing the book in paper form. This format can be conveniently formatted and edited.

ZIP is a widely used file archiving format that is used to compress one or more files in one location, reducing their overall size and making it easier to transfer data. Inside this archive there will be two book files in both PDF and DOCX formats, plus drawings of gay Satanism in the form of raster images.

To create ZIP archives and extract (unpack) the files they contain, special utilities can be used, for example terminal PKZIP and PKUNZIP or graphical WinZip, WinRAR, Info-ZIP, 7-Zip, PeaZip and many others.

Also, Antichrist Slut Sodomia sees great potential in spreading gay Satanism through creating videos from static documents of PDF e-books and PPTX presentations. Slut Sodomia will try to create a sufficient number of videos based on static digital files with text and pictures of Satanism. Perhaps it is worth converting all gay Satanism files to digital video format of modern 4K resolution. First, I will convert the most understandable and puritanical albums of gay Satanism to video format, and then I will make such video releases with other albums of gay Satanism.

FREEDOM OF DISTRIBUTION OF ANY INFORMATION

Any information should be disseminated freely, openly and without interference from the evil of our world. No copyright should interfere with this. Each work has a true author and no copyright is needed, just as no legislation in the field of information dissemination or copyright is needed. Anyone who interferes with the freedom of information dissemination is criminals and enemies of your personal freedom. Self-balancing of

the information field of our world will not allow evil, harmful and false information to spread. All this happens without censorship from the state, automatically in the space of the information field of our world. Good and necessary information will be in demand, and bad and harmful information will become unnecessary. Also, the distribution of this book-album should be completely free. I know for sure that the evil of our world will recognize the main grimoire of gay Satanism as “illegal” and ban my book “Gay Lust”, as well as the music albums of Satanic songs and hymns SatanSongs and the albums of paintings of gay Satanism SatanArt.

Protect commercially important information and your personal information yourself if you need it. Your desire to withhold information is not a reason to prohibit public dissemination or discussion of this information. Any censorship and bans on information are an obvious evil. Everything secret, sooner or later, becomes clear.

You can sell the book in any electronic format and publish it in physical form. The author requests 20% of the e-book sales price and 20% of the profits from the paperback version. Selling my book or other text, graphic, musical materials, and documents from Slut Sodomia:

- is a convenient way for sellers to make money from the book;
- is a convenient way for readers, Satanists, and members of the LGBTQ+ community to support the author;
- is a method for distributing a book about gay freedom and gay love worldwide;
- this is a method of distributing a book about Satanism, spirituality and our Teacher Satan.

accounts for other people's cryptocurrency accounts. Distribute and sell publications of the Antichrist Slut Sodomia in electronic and paper form. The spread of gay Satanism will improve our world and support the LGBTQ+ community with information. The publication and sale of the Antichrist's books will be an informational blow to the evil of fascism and the stupidity of homophobes and transphobes worldwide. Slowly but surely, the black magic of gay Satanism's information will destroy evil, promoting the ideas of Satanism, freedom, and inclusivity of the LGBTQ+ community. Satanism, unlike various other ideologies, religions, and philosophies, is the inner inspiration of Satan. This is where the great potential of gay Satanism lies.

The Antichrist sells source files for typesetting, printing & publishing paper versions of his gay Satanism publications on his websites. All source files are created in Microsoft Word DOCX format.

TRANSLATION OF THE ALBUM OF SATANIC DRAWINGS SATANART INTO OTHER LANGUAGES OF THE WORLD

The album SatanArt in the original (i.e. by Slut Sodomia) is written in Russian and English. Translate the book-album SatanArt into all languages of the world and distribute it in your language environment. The author of the book will be very happy about this. The more people can see satanic paintings and read the text titles-comments to them, from the SatanArt album, the better people will become and the more crushing the blow we will deal to the evil of our world. The visual power of art and the words of the Antichrist in the SatanArt album have a strong effect on the consciousness of man and his spiritualization by Satan. On the title page of my book, write your name as a translator or proofreader of my book if you will translate or correct errors.

DONATIONS TO THE AUTHOR AND COPYRATES WHEN SALES OF A BOOK IN PRINT AND ELECTRONIC FORM

Antichrist Slut Sodomia has done a lot of work creating art albums of paintings of gay Satanism SatanArt, working on compiling this e-book, searching for drawings on the Internet and compiling their descriptions for you. Four reasons to support the author financially:

The first reason is if you share the ideas of Satanism. This book is a guide and grimoire for established Satanists and for people just beginning to gain insight. Let their path be illuminated by my literary work and help them receive the spiritualization of Satan in full, using my grimoire as a navigator.

The second reason - if you think that the book is useful and valuable for members of the gay fraternity, Satanists and the entire LGBTQ+ community - support the author with any donation. The book about gay Satanism exposes the evil of our world and shows why it is the state, religion and the dark herds of evil, selfish, unspiritualized souls that are the main forces of evil in our world. It is not Satan and not man's spirituality with joy, pleasure, sexual lust that is evil, but evil is located precisely in our world itself. It was evil, in the form of the state and religion, that destroyed Jesus of Nazareth, who was a disciple of Satan, a spiritualized man, and this evil still oppresses your freedom 2000 years later since the life of Jesus of Nazareth in our world.

The third reason - if you want to see a new and expanded version of this book or new books by the author - support the author with any donation. You can make all donations using cryptocurrency - this way you and the author of the book will remain anonymous. What is very important in the world of total censorship and a total ban on freedom of speech throughout the world at the moment on issues that do not coincide with the official propaganda of states and the ideals imposed by these states.

The fourth reason is if you make money from my literary work by selling it.

You can sell my book; you can translate it and sell translations of my book. You can do this freely, and I will be only happy about that. If you sell the book in print, I ask for a modest 20% of the profit. My written or oral permission is not required to sell the book - you can publish and sell this book. For example, you can publish this book in the form of registered or numbered copies on high-quality paper bound in leather with gold

embossing at a high price. Or you can publish the book as a mass edition with a large circulation to spread knowledge about gay sex and gay Satanism at an affordable price.

Or you can put my book up for sale on any sites on the Internet where documents and books are sold in electronic form. If you sell the book as an e-book, I ask for a modest 20% of the sale price. You don't need any permissions for this. I give you this permission here.

Transfer 20% of the profit (for paper versions of the book) or the amount of copies of the book sold (for electronic sales) to the author's cryptocurrency accounts in any available cryptocurrency. These will be sufficient royalties for the publication. All copyrights belong to the author of the book.

You make money from my book. Distribute my book for free and for a fee.

Antichrist Slut Sodomia does not work for a living and has spent many years writing books on Satanism, so he counts on financial support from the Satanist community around the world, I believe I will receive donations from members of the LGBTQ+ community. I also hope that my work will find financial support among feminists, queers and all people with non-standard sexual preferences, which are groundlessly condemned by the society of unenlightened critters, fascists and underdeveloped organisms of evil biohumus. The Antichrist has no other income, but he needs money for household expenses, utility bills and food. To continue writing the second grimoire of Gay Satanism "Beyond the States", I need money for my support in our world. I count on cryptocurrency donations from my readers or viewers of the videos. The material existence and creativity of the Antichrist rests on financial expenses for material life and here, even black magic against the forces of evil will not replace the presence of money.

ABOUT ADDITIONS TO THE GRIMOIRE “GAY LUST” FOR DEPTH SPIRITUALITY BY SATAN

To deepen the spirituality of Satan, Slut Sodomia has prepared and released two additions to its grimoire “Gay Lust” into the Information Space of the Internet, Darknet and torrent network:

- Albums of Satanic music videos for the immersion in the spirituality of Satan. Numbered periodical Journals. SatanSongs and QuasiSatanSongs are an occasional addition to the Gay Lust Grimoire. The lyrics have been translated into Russian. Lyrics in English are published in the English version of this supplement. Clips in MP4 format come as an appendix to this add-on. In total there will be 4 collections of satanic videos SatanSongs with 100 tracks each, plus there will also be an album of quasi-satanic songs QuasiSatanSongs about love, romance, lust. There is continuous numbering of compositions in all SatanSongs music albums³⁰. Thus, there will be 500 video clips that help satanic spiritualization. The album QuasiSatanSongs has its own numbering of songs.
- Albums of fine art of gay Satanism for immersion in the spirituality of Satan SatanArt. Thematic numbered periodical Journals of the fine arts of gay Satanism SatanArt. This is an occasional addition to the Gay Lust Grimoire. SatanArt Albums contains paintings and drawings of gay Satanism on specific themes that are related to Satanism or sexual lust. I will publish these albums regardless of the grimoire itself. All paintings in SatanArt art albums have continuous numbering, just like songs.

DON'T HESITATE TO BE A SATANIST!

I like the phrases “Don't hesitate to be a Satanist!” and “Don't be shy about being Satan!”³¹. They are multifaceted, and are aimed at calling people not to be afraid to receive satanic spirituality and not to be afraid to resist evil.

NUMBERING AND CONTENTS OF COLLECTIONS-ALBUMS OF SATANIC PICTURES SATANART

The total number of collections and albums of satanic drawings and paintings of SatanArt is currently unknown. I would like to make about 100 albums if readers and the Satanic community like my work. Each SatanArt album will contain 100 drawings. There will be continuous numbering of all images in all music albums to organize the graphic material. Continuous numbering implies a common numbering of objects in all albums of satanic graphics SatanArt.

³⁰ Continuous numbering implies a common numbering of objects in all albums of satanic musical compositions.

³¹ This is Satan's phrase. Our Spiritualizer Satan says this phrase to his children, the Satanists. The phrase does not refer to unspiritualized critters of evil who do not have satanic spirituality. And does not apply to mentally ill people.

ADDITIONAL INFORMATION ABOUT GAY SATANISM FROM ANTICHRIST SLUT SODOMIA

I hope that my selection of digital Satanic paintings, drawings, photographs and other graphics of gay Satanism for immersion in the spirituality of Satan SatanArt will be useful to people, and you will find interesting images for yourself in my selection. Visual art for those who are already Satanists and for those who are just thinking about becoming a Satanist and are looking for a connection with Satan for their spirituality. Of course, these paintings can be viewed simply as beautiful masterpieces of fine art 😊, without being tied to the ideas of gay Satanism.

If you are interested in the topic of gay Satanism, you can download and read other books from Slut Sodomia:

- Grimoire of Gay Satanism “Gay Lust.” This is the main grimoire of gay Satanism. This is a magical book that allows me to become a Satanist, helps me see the evil of our world and destroy this evil.
- Albums of Satanic music videos for immersion in the spirituality of Satan, which I call SatanSongs collections. In 2024 I created 4 SatanSongs albums + 1 quasi-satanic album QuasiSatanSongs.

The Gay Lust Grimoire is intended for both experienced Satanists and novice Satanists who want to deepen their spirituality with Satan or even gain it. The grimoire “Gay Lust” is a navigator for a Satanist and a conceptual basis in the fight against the evil of our world. There are Satanists not only among gays themselves, but also among straight people inspired by Satan. And that's great! It turns out that gay Satanism and my book are for all people in whom the fiery rage of sexual perversion burns, as an important element of spirituality by Satan. The book “Gay Lust” is a rebellion and liberation of your consciousness from the dungeons and frames of consciousness imposed on you by the system of the regime, religions and homophobia. The book is a grimoire of gay Satanism with the ritual of Summoning Satan and a code of principles of gay Satanism. The Gay Lust Grimoire is a training manual for passive fagots, active gays and trannies. The grimoire “Gay Lust” liberates the sexuality of any person and throws off the shackles of puritanical hypocrisy.

The grimoire “Gay Lust” is distributed completely free of charge in electronic form. You can freely download, quote and distribute the grimoire book. Look for the grimoire of gay Satanism “Gay Lust” on sites on the regular White Internet, Torrent trackers or on the Tor network on ONION sites.

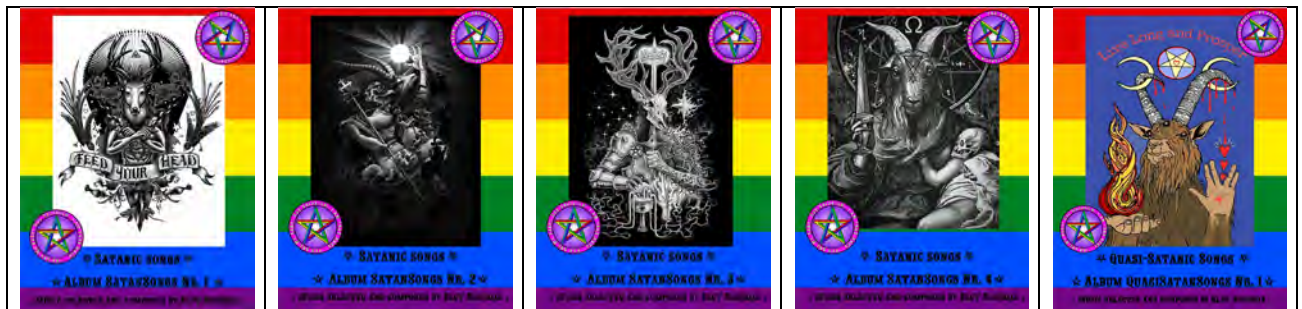

LIST OF ADDITIONAL APPENDICES TO THE GRIMOIRE OF GAY SATANISM FOR IN-DEPTH SPIRITUALITY WITH SATAN

Applications to gay satanism are satanic music and graphics:

1. Collections of Satanic music videos selected and compiled by Slut Sodomia.
2. Collections of satanic drawings, photographs and other graphics of gay Satanism, selected and compiled by Slut Sodomia.

Collections of Satanic music videos, created either by Satanists or non-Satanists, but they are devoted to the theme of Satanism, in the understanding of Slut Sodomia. The words of these songs are about Satan, or about Satanists, or about the liberation of people from the power of evil, or other quasi-Satanic themes. Songs of completely different genres! Their main feature is that good music inspires. At the time of completion of the first version of the grimoire, Slut Sodomia had collected 500 gay Satanism music videos:

1. Album of Satanic music videos for immersion in the spirituality of Satan. SatanSongS Nr. 1
2. Album of Satanic music videos for immersion in the spirituality of Satan. SatanSongS Nr. 2
3. Album of Satanic music videos for immersion in the spirituality of Satan. SatanSongS Nr. 3
4. Album of Satanic music videos for immersion in the spirituality of Satan. SatanSongS Nr. 4
5. Album of quasi-Satanic music videos for immersion in the spiritualization of Satan. QuasiSatanSongs Nr. 1

Gay Satanism graphic art, collected and designed in the form of SatanArt collections, suitable for publication on paper and in book form, will reveal the aesthetics of Satanism and help Slut Sodomia in the development of gay Satanism around the world. Your purchase of graphic albums-collections of gay Satanism graphics SatanArt, in DOCX / PDF / JPG / PNG / WebP format, will support Slut Sodomia financially, and I will know that my work is in demand by people. Let the publication of SatanArt albums allow Satan to enter the souls of more people, let there be more Satanists and less evil from soulless critters.

ABOUT THE DEVELOPMENT, IMPORTANCE AND USE OF CRYPTOCURRENCY

I am writing this chapter about the development, meaning and use of cryptocurrency in 2024. Now, cryptocurrencies, as a means of speculation, investment and payments, are already working quite well, although for most people on planet Earth, crypto-coins are more of a mysterious phenomenon than an applied financial instrument. Slut Sodomia is very glad that a

wonderful alternative to fiat money³² issued and controlled by SOCG has appeared. The name of this alternative is cryptocurrencies, Bitcoin and all the altcoins of the world³³.

Cryptocurrency opens up enormous opportunities to get rid of the evil of SOCG on our planet Earth. It is control over material values that allows the SOCG to rule, mock people, dictate their laws and do various evils in our world (including wars, prisons and collecting tribute from the population). The material wealth of the SOCG is based on: power, evil and money. If the SOCG is stripped of its power over the financial control of money, it could significantly undermine the SOCG's power throughout the world. Cryptocurrencies operate outside of the SOCGs and do not need them.

Lately (since about 2015), the vilest SOCG's have been trying to stick their ugly nose into the control of cryptocurrency, its circulation and use. SOCG began to choke cryptocurrency enthusiasts and large financial speculators in cryptocurrency around the world. SOCG of the USA and Europe require registration and verification of the identity of people who use cryptocurrency on public platforms online and offline. Evil really wants to take control of cryptocurrency, and thereby strangle people's financial freedom. Evil does not want

³² https://ru.wikipedia.org/wiki/Фидуциарные_деньги Wikipedia. Fiduciary (from the Latin fiducia - trust), fiat (from the Latin fiat - decree, instruction, "so be it"), symbolic, paper, credit, unsecured money - money not backed by gold and other precious metals, the nominal value of which is established and is guaranteed by the state regardless of the cost of the material used for their manufacture. As a rule, irredeemable for gold or silver. Often, fiduciary money is used as a means of payment on the basis of state laws obliging it to be accepted at face value. The value of fiduciary money is maintained by people's belief that they can exchange it for something of value. The decline in the authority of state power leads to a decrease in the purchasing power of fiduciary money, that is, to devaluation, "flight from money" (attempts to maintain its purchasing power through investment), etc.

³³ Bitcoin started the era of digital crypto assets in 2009. The shortcomings and limitations of the first cryptocurrency, as well as its open-source code, led to the fact that developers began to create other coins. They are called altcoins.

people to leave the orbit of the influence of the SOCG over money. Evil wants to destroy the very idea of freedom of cryptocurrency and the anonymity of its users.

It is very bad that many financial speculators - exchanges, exchangers and crypto-wallets have followed the requirements of the SOCG and force users to play by their rules. It's very bad that among crypto enthusiasts there is little talk about refusing collaboration with the evil SOCG. More and more cryptocurrency circulation is becoming dependent on the evil of the SOCG and its directives.

I urge the community of cryptocurrency developers at any level not to collaborate with the state and not to obey their gangster rules. SOCG is simply an evil crook in the field of cryptocurrency technology who wants to rape and subjugate this technology and the users of this technology. Don't let the evil of SOCG deprive you of financial freedom and an alternative financial future outside of states and without states. This was a philosophical preface about cryptocurrency, let me move on to the practice of using crypto-coins.

For beginners, I recommend entering cryptocurrency by opening and creating a non-custodial crypto wallet, which allows you to ensure security and convenient management of your cryptocurrency. Such wallets provide users with complete control over their funds, eliminating the participation of third parties and minimizing the risks associated with hacking or fraud. A non-custodial wallet is a computer program and a type of cryptocurrency wallet in which only the owner has full control over his funds and private keys. The wallet does not store personal information and does not have access to assets. When you create a non-custodial wallet, you are usually given a private key or a seed phrase (a series of words that can be used to generate a private key). This information is not stored by third parties and it is important that you keep it secure. If you lose it, you will lose access to your funds and there is no way to recover it.

In 2024-2025, the most popular, convenient, reliable software crypto-wallets, in my subjective opinion, are the following non-custodial wallets:

1. Exodus <https://www.exodus.com/>
2. MetaMask <https://metamask.io/>
3. Trust Wallet <https://trustwallet.com/>

Install these programs (one or more), downloaded from official websites, on your computer and begin to master entering the new era of electronic money, outside of states. These programs allow you to buy cryptocurrency with fiat money (dollars, euros and other currencies), make payments to other people's cryptocurrency addresses, and receive payments to your crypto wallet. Installation of these programs is quite simple and available for the most popular operating systems. After successfully creating a crypto wallet, you can send some crypto coins to Slut Sodomia to the details provided in this document if you like Gay-Satanism and the work of Slut Sodomia. I will be happy, and you will check your crypto wallet in action 😊.

To enter the world of cryptocurrency, you can use online services called crypto exchanges. A crypto exchange is a less reliable means of storing cryptocurrency than non-custodial crypto wallets, but some people may find it easier to work with crypto exchanges. Access and work with crypto exchanges occurs through a computer Internet browser, like with any other sites. Please note that crypto exchanges have full control over your finances and can block your money, at the request of fascists from different countries. There are many crypto exchanges and Antichrist Slut Sodomia cannot guarantee which of them is the best, most reliable and convenient. I will recommend four crypto exchanges that have been operating for a long time and with the help of these exchanges you can send donations, donations or royalties in cryptocurrency to Antichrist Slut Sodomia:

Kraken. <https://www.kraken.com>

Kraken is an American cryptocurrency exchange founded in 2011. It was one of the first Bitcoin exchanges to be listed on Bloomberg Terminal.

Binance. <https://www.binance.com>

Binance is the world's leading cryptocurrency exchange, serving 235 million registered users in over 180 countries.

Coinbase. <https://www.coinbase.com>

Coinbase is one of the most well-known names in the crypto industry. Launched in 2012, it offers an intuitive and beginner-friendly platform for buying, selling, exchanging, and storing cryptocurrencies.

SwissBorg. <https://swissborg.com>

SwissBorg is Europe's #1 app for securely buying and selling cryptocurrency with low fees, available in 47 countries and 16 currencies.

Best Wallet. <https://bestwallet.com>

Best Wallet is a non-custodial app that offers wallet and exchange services in a single secure decentralized environment.

The methods recommended by Antichrist Slut Sodomia for selling, buying and transferring cryptocurrencies cooperate with states, i.e. with fascists and SOCG. I do not guarantee the reliability of these trading platforms. Crypto wallets and crypto exchanges require people to provide documents when registering, require them to show themselves through photo or video filming. Cryptocurrency exchanges implement a Know Your Customer (KYC) policy to comply with anti-money laundering (AML) and counter-terrorism financing (CTF) regulations, ensuring the legality of transactions and the safety of users. To register on a cryptocurrency exchange, you need to provide personal data, confirm your identity with documents and a selfie, and wait for approval to access all functions. Exactly the same story when registering in regular banks. On the one hand, it gets rid of scammers, but on the other hand, it is control by various SOCG and loss of anonymity. If I find more anonymous and reliable options for making cryptocurrency transfers, I will write about it in the next versions of the documents.

GAY-SATANISM IN ENGLISH LANGUAGE ON THE INTERNET

In this section, you will learn where to download and read the Modern LGBTQ+ grimoire "Gay Lust" in English, Satanic art albums SatanArt and collections of Satanic music albums from the Antichrist Slut Sodomia. The Modern Grimoire "Gay Lust" is intended for both experienced Satanists and beginner Satanists who want to deepen their spiritualization by Satan or even receive it. The Modern Grimoire "Gay Lust" is a navigator for a Satanist and a conceptual basis in the fight against the evil of our world.
